# 'Plumbers' Said To Tie'71 Leaks To U.S. Military

By Seymour M. Hersh

WASHINGTON, Jan. 11 (NYT).—The White House investigative unit known as the "plumbers" uncovered evidence in late 1971 that a "ring" of military officers was relaying highly classified information on the China talks and other matters to officials in the Pentagon, wellinformed sources report.

Some of the officers were assigned to the National Security Council. The secret inquiry, headed by David R. Young ir., then a co-director of the "plumbers," was said to have determined that at least two military officers had participated in apparently illegal activities—including the ransacking of classified files and the unauthorized photocopying of documents-in an apparent attempt to keep high Pentagon officials up-10-date on White House negotiations.

Although no charges were filed formally, the sources added, as Although no charges were filed formally, the sources added, as many as six military men were reassigned after the investigation. Sources said that Mr. Young's inquiry initially was begun in response to the December, 1971, publication of secret National ecurity Council documents on the India-Pakistan war by Jack addreson, the columnist, but quickly spread into a broad investition of possible widespread military spying.

It was this investigation, reliable sources said, that has been reatedly cited by President Nixon as the "national security" ter that justified his initial attempt last spring to limit the term of the president of the Watergate break-in.

The sources said that Mr. Young and Secretary of State Henry

The sources said that Mr. Young and Secretary of State Henry Kissinger, who also heads the National Security Council, both pected then that reports on the White House's highly secret gotiations with China. North Vietnam and the Soviet Union ere being leaked to Secretary of Defense Melvin R. Laird and dm. Thomas H. Moorer, chairman of the Joint Chiefs of Staff.

#### Laird's 'Feeling'

Details of the negotiations were officially limited to a few offi-s in the White House and the National Security Council staff. The investigation, which lasted until early 1972, sources said, was early conducted by Mr. Young. The other three members of the mbers"—Egil Krogh fr. G. Gordon Liddy and E. Howard Hunt fr. waved little or no roles in the inquiry.

The sources interviewed by The Times agreed that Mr. Kissinger and Mr. Young's belief that Pentagon officials were anxious to obaby covert methods if necessary—details of the White House's fareaching secret deliberations with nations nominally considered America's enemies by military men.

"Laird had a definite feeling that he was being cut off from a lot of stuff and I know it's true," a former Kissinger aide said

The highest ranking officer reassigned, sources said, was Rear Adm. Robert O. Welander, who was then serving as the liaison film hetween the Joints Chiefs of Staff and the National Security

## Havana Again Bars U.S.Links Until Blockade Is Abandoned

MEXICO CITY, Jan. 11 (UPI). -The Cuban government said again yesterday that the United States would have to lift its economic blockade of Cuba before any "official exchanges" could take place between Havana and Washington.

The statement, released in Havana and issued by the Cuban news agency, Prensa Latina, in Mexico City, mentioned no other conditions for the beginning of talks with the United States. The two countries broke off diplomatic relations in January, 1961.

The Foreign Ministry made the statement because of what it called "capricious interpretations" of a similar statement that was made here Monday night by the Cuban Ambassador to Mexico, Pernando Lopez Muino.

Mr. Lopez told newsmen that the regime of Premier Fidel Castro was "not engaged in a holy war" against the United States and that, as soon as the United States lifted its economic blocksde, the way would be open for resumption of diplomatic

On Tuesday, reacting to Mr. Lopez's remarks, State Depart-ment spokesman George Vest said: "We are not dismissing them. We will weigh everything." He added, however, that he would not want to jump to the conclusion that Mr. Lopez's tatement constituted a major departure in Cuban policy toward the United States. Mr. Vest indicated that further evidence of Cuba's interest in improving relations would be needed.

State Department officials said that Mr. Lopez's statement appeared to partially satisfy one of the two conditions for improving relations with Cuba outlined by Secretary of State Henry A. lisginger last month.

Mr. Kissinger said then that le hostility of the government Cuba" has been one of the two or obstacles to rapprochement. te second barrier, Mr. Kiser said, is Cuba's commitment volutionary policy throughthe Western Hemisphere.

. Castro reaffirmed late month that Cuba would be ng to dispatch troops to any n American country which the face of imperialist agresneeds Cubans to fight along-

to what it called a "clarifican" of the Lopez statement, the ited States for broken relations and said it "will not make

the first step toward re-establishment of diplomatic links." If the United States decided to begin "any official interchange Cuba said, "first there would have to be an unconditional end to

the blockade against Cuba." "Cuba will not accept discussions under other conditions," the statement added.

"Once the blockade is eliminated," the statement said, discussions "would have to begin with the readiness of the representatives of the United States to recognize that the United States has no right to intervene in affairs relative to sovereignty of Latin American nations."

#### Storms Damage Homes in Britain

LONDON, Jan. 11 (AP) .--Storms swept Sritain today, leav-ing a trail of damaged homes and blocked roads.

Police reported that 80 percent of the homes in the village of Malitracth, Wales, had been damaged. Roofs were torn off. chimneys blown down and windows shattered Similar reports of damage were received from many parts of the country. Along the east coast, watch was kept for sign of a tide surge like that which broke sea walls in January. 1953, and drowned more than 300 persons. This is a period of exceptionally high tides.

terday in which Secretary of State Henry A. Kissinger implic-French, among others, for seeking exclusive oil arrangements with the Arabs. Mr. Kissinger urged consumer nations to band together for an energy-procurement

Drogram. France has recently concluded with Saudi Arabia a long-term contractual arrangement for the provision of arms, industrial spods and technical aid in return for assured oil supplies.

Britain is negotiating a similar long-term arrangement with Saudi Arabia and other key Persian Gulf producers, coupling an offer of industrial goods, with suggestions that Arab countries invest surplus funds in this country.

Without naming either Britain or France, Mr. Klesinger said that such "unrestricted bilateral competition would be ruinous." He warned that "even those who steal a march" on assuring their oil supplies, cannot avoid a future

The British Foreign Office would make no public comment on this developing dichotomy of attitudes. A spokesman remind-ed newsmen that the British government has warmly welcomed President Nixon's initiative Wednesday for a series of conferences that will bring consuming and producing countries together with the sim of solving the world's unprecedented energy crisis.

Prime Minister Edward Heath today was sending the President a reply indicating that a substantive and probably affirmative answer would follow sometime next week after a round of consultations within the ninenation European Economic Community. .

Authorities here are making a distinction, however, between the Nixon initiative and their attempts to achieve a series of lunmediate deals to insure their oil supplies.

"The Nixon plan for a multilateral approach to the world energy problem is, as we see it, essentially a medium or long-term project which will do little to resolve our immediate prob-lems," the authorized official source said. "It is, meantime, the strong duty of the British government to take all steps open to it to secure the nation's oil

supplies."
France seems skeptical of the Nixon plan, apparently feeling that the eight-nation talks pro-posed for Feb. 11 in Washington (Continued on Page 2, Col. 1)

# Kissinger Opens Talks With Sadat On Hopeful Note

. By Marilyn Berger

ASWAN, Egypt, Jan. 11 (WP).—U.S. Secretary of State Henry A. Rissinger arrived here today in an effort to shape Israeli-Egyptian principles for a disengagement of forces along the Suez Canal.

He was met at the airport by Foreign Minister Esmail Fahmy.

They went immediately to the riverside villa where President Anwar Sadat has been recuperating since last month from an attack of

Mr. Rissinger and the President met privately for an hour of what was later described as "serious conversation." The Amer-

ican delegation had earlier said that this visit would be a cour-tesy call, but State Department spokesman George Vest subse-quently reported: "It was more than that—it was the beginning of serious consideration."

The formal talks of the secre-

tary of state and the President tary of state and the President are to begin at 11 a.m. tomorrow.
On his way here from Washington Mr. Rissinger stopped briefly in Madrid, where he met with the new Spanish Foreign Minister, Pedro Cortina Mauri. Reporters traveling with the secretary of state were told that he was confident that, after more than two months of talks, Egypt and Israel were finally developand Israel were finally develop ing approaches that are in the same "ball park."

But officials conceded that when it comes to the details of maps and force levels the two may still differ so radically as to make it impossible to come to an

agreement. It is Mr. Kissinger's hope that he can prevent the negotiations from getting bogged down in technical details. At a minimum, a senior official said, the secretary hopes that this, his third trip to the Middle East since the October war, will produce some thing to "grease the wheels" of the stalemated negotiations in

concrete proposals and that Israel is expected to develop its position shortly.

They added that the two sideshave already come much closer. together than they had been. In November, they said, Egypt was demanding an Israeli withdrawal to the El Arish-Sharm el-Shelkh line while Israel was talking about an Egyptian pullback from the west bank of the canal

Now both sides are talking about a significant disengagement," these officials said, al-though there is still no agreement on the extent of the withdrawal, the firepower that remaining troops would have and the methods of enforcement.

The two sides were pictured as "Teaning toward" acceptance of a UN enforcement mechanism. The officials traveling with Mr. Kissinger also indicated that Egypt's insistence on linking the initial disengagement to an overall settlement might, hopefully, be dealt with by a declaration. By shuttling between Egypt and

resentations to them."
In September, 1972, it was estimated that Soviet grain purchases would total 125 million bushels of wheat. By the end of 1973, 38.7 million remained to be delivered. The deferring of 18.4 million means that 20.3 million bushels still will be delivered in the near future.

## Fears of Invasion by U.S. Rise In Mideast; Oil Fields Mined

By William J. Coughlin

BEIRUT, Jan. 11.-Arab leaders and Western diplomats are desply concerned over the possibility of American military interrention to scize Middle East oil fleids.

An American ambassador to an oil-producing nation said privately that an intervention could lead not only to destruction of a major portion of the world's o i supply but elso to a holocaust with fallout effects similar to those of an atomic bomb.

Saudi Arabia and Kuwait, the principal Arah oil-producing nations, have placed explosive charges around their major oil a moment's notice, according to reports reaching here.

The ambassador said it would be virtually impossible to put out the fires resulting from such ex-plesions. Further, he said, prevailing winds would carry the dense smoke clouds across the Persian Gulf to Iran, where the fallout of sulchur d'oxide could

result in the deaths of thousands. Petroleum experts said that the high content of sulphur dioxide in smor was responsible for such air pollution disasters as the one in London more than 20 years ago which took 3,500 lives. Deuse smoke clouds from oil fires could be even deadlier, they

Oll experts also noted the extreme difficulty of putting out

oil-field fires once they start. The most immediate Arah concern over the possible use of U.S. troops to selze the oil fields arose from a statement Monday by American Defense Secretary James R. Schlesinger that the Arabs would be risking the use of force against them if they

## U.K. Rejects Oil-Unity Plea Of Kissinger

(Continued from Page 11 could lead to a confrontation between the rich consumer nations and the oil producers.

The reaction by West Germany and the Netherlands to the Nixon invitation to a Washington parley was positive, and this indicated the possibility of more dissension within the EEC, where the energy problem already has divided Britain and France from their

The EEC nations' foreign ministers will meet in Brussels Monday to discuss representation at the Washington parky. The British Foreign Secretary, Sir Alec Douglas-Home, intends to reassirm then Britain's stand against formation of a common EEC energy program until the community settles its differences over establishing a regional aid fund. This country, which stands to benefit substantially from the fund, wants a much larger

regional-aid program than Bonn finds acceptable. In other developments in the

world energy situation: • In Tokyo, the cabinet secretary ancounced that Japan will participate in the Washington conference. He said his government hoped that the parley would be the first step toward creating harmonious relations between the oil-preducing and oil-consuming

The government today ordered a strict new fuel-saving program, directing industry to reduce its electricity and oil consumption by 15 percent beginning Monday. The program includes a ban on ncon and other advertising signs and officials said that Tokyo will be converted from a glittering city to one that is "as dark as it was right after World War IL"

effect until the end of February. • In Moscow, Deputy Foreign Trade Minister I. F. Semichastnov said today that although tha Sovict. Union has "very great resources of oil and gas" it is not planning to increase its exports in the foreseeable future. He rejected as "false and unseemly" reports that the country was increasing its oil exports "behind the backs of Arab countries." Mr. Semichastnov said, however, that the government does not rule out the signing of new long-term contracts for oil exports in the

#### Kissinger Sees **Progress on New** Panama Accord

WASHINGTON, Jan. 11 (NYT).
—Secretary of State Henry A.
Kissinger said yesterday that tha United States and Panama had made "substantial progress" to-ward a "statement of principles" on their negotiations on a new treaty regulating the Americanowned Panama Canal.

A U.S. official said the statement of principles, if adopted, would serve as "instructions to the negotiators of the new treaty."

Mr. Kissinger reported on a preliminary agreement reached between new Ambassador-at-large Elisworth Bunker and Panama's foreign minister, Juan Antonio Tack, earlier in the week, Mr. bunker returned to washington on Wednesday.

The Bunker-Tack agreement was described by a U.S. official ward negotiation of a new past to replace the 1903 treaty that gave the United States control of the Panama Canal "in per-

The official emphasized, however, that the prcliminary agreement required approval of many in the Panamanian and U.S. gov ernments and consultation with the U.S. Congress as well.

Mrs. Meir Has Shingles

JERUSALEM, Jen. 11 (Reoters).—Israel'e Premier Golda Meir, who has been indisposed since last week has been suffering from shingles, sources here said today. They said Mrs. Meir's

## Kissinger Reported Hopeful In Opening Talks in Egypt

(Continued from Page 1) Israel, the American winner of the Nobel Peace Prize hopes to nudge the two sides closer toward agreement. Following his talks with the Egyptian President here in Aswan, Mr. Kissinger will go to Jerusalem tomorrow to meet with Israell Premier Golda Meir and her cabinet. The secretary expects to return to Egypt Sunday and after that will probahly go back to Jerusalem, schior officials said.

The officials said that Mr. Kissinger saw bis role as that of an outsider who could bridge the "monumental distrust" between tha Egyptians and Israelis. Officials said that the secretary might ba able to ease positions, make suggestions and provide interpretations before the two sides got locked into concrete positions. But they said that he could not settle the problem for them. Mr. Kissinger hopes, the officials reported, that his high-level intervention will help the two countries' military negotiators avoid a deadlock over technical problems.

Seeks Momentum The American's ambition is to help get a troop disengagement that will provide momentum toward further settlements. Any effort to seek a final, total agreement now, senior officials travel-

ing with Mr. Kissinger said, would

be a prescription for total paral-The officials said that Egypt and Israel fear that there is a high probability that, without the help of an outsider, their negotiations would bog down, The willingness to use Mr. Klasinger indicates that both sides are committed to getting an agreement,

if at all possible, the officials Last month U.S. aldes were expressing confidence that a deal could be worked out by the end

of January, but no such predictions are being made now. Senior officials say only that progress is

possible this month. After traveling between Israel and Egypt, it is likely that Mr. Kissinger will go for a few hours to Amman at the invitation of King Busseln. Jordan has exhibited anxieties about heing left out of e settlement once Egyptian and Israell troops disengage and the Suez Canal is reopened. Mr. Kissinger's schedule also

leaves time for a stop in Damas-cus, although officials say this is Mr. Kissinger now intends to stop in Brussels at the end of his trip to brief the NATO Council. Officials say that the secretary firmly plans to be back in Washington Wednesday evening. But the trip keeps adding stops, with even Saudi Arabia now a pos-

sibility. The chief of American diplomacy clearly is not expecting smooth sailing in his talks in Egypt and Israel, He recognizes the initial disengagement as a major political act with important consequences that will re-

quire the confidence of both But officials say that Mr. Kissinger would not have undertaken this mission if he had not believed that he could get an Israeli disengagement proposal that would be "within negotiating range" and that could yield

results in Geneva. It is a matter of speculation whether Mr. Kissinger hopes to arrange a deal that will require only basic formalities in Geneva -in effect, obtaining near-final agreement during this trip. On the one hand, he clearly does not want to give the impression of completing the deal himself. On the other, he is not

a person to leave the outcome to

## At Army Station bers in a note book belonging to one of the defendants, Sylvis Rafael, the French police man-

aged to solve a code for telephone numbers used by the group. This has led the police to seven Paris apartments that could have heen rented by the group," state attorney Hankon Wiker esid. A Norwegian detective has been sent to Paris to assist the French

The six Jews of various nationelitles pleaded not guilty to the charges when the trial opened Monday. They are charged in connection with the slaying of an elleged Arab Black September leader, Moroccan-born Ahmtd Bouchiki, in Lillehammer, near here, last summer.

Alleged Secret Agenta

The prosecution asserted in an opening statement that some of the defendants were full-time Israeli sceret agents. Pert of the trial has been beld in closed

In open session today, Mr. Wi-ter continued to question Danish-born Dan Aerbel, who said Mr. Bouchiki was lovolved in plans for a "terror strike" segment the Stockholm office of the Israeli El Al sirlinc. "The Israeli Embassy in Oslo was also mention-

ed," be sald. Mr. Aerhel told Mr. Wiker that he was ordered by an Austrian leader of the group, Gustav Fisthauer, to shadow Karim Benamene, a Black September courier visiting Norway. He said Mr. Benamene had handed over "some documents" to Mr. Bou-

Olympic Massaure

"I was also shown a picture of a man, Black September leader All Hassan Salane. Not until I was arrested and questioned by Norwegian police did I understand that Salane was suspected as the man behind the Munich Olympic massacre," Mr. Aerbel said.

Police sources said Mr. Pistbauer, 60, left Norway before Mr. Bouchiki was killed in July. Mr. Aerbel, who was questioned

partly in closed assien, said that he had no previous knowledge of his group's mission in Norway and that be had worked mainly as an interpreter.

Court President Erling Haugen then ordered a weekend recess and said the trial will resume

## Two Greek Bishops Withdraw Candidacy for Archbishop

Archbishop Ieronymos did not name his enemies. But he was apparently opset when he was not asked to swear in the new president after the Nov. 25 coup.

## Car Bomb Blast Kills 2 in Ulster

BELFAST, Jan. 11 (UPI'.-A bomb-laden car exploded outside Lendonderry's Ebrington British army barracks today, killing a man and e woman riding in the

vehicle, police said. Both victims were civilian employees at the barracks and police believed that the IRA booby-trapped, the car in the hope that it would explode insida the barracks, a police spokesman

Instead, the car exploded as the man gave the woman drivinstruction outside the barracks during their lunch bour. the spokesman said.

The hlast knocked down several persons at a hus stop, but none was seriously burt.

Police said that the bomb, which weighed about 50 pounds, was probably attached to the underside of the car during the night. They believed that it was intended to explode while the car was parked inside the

harracks. At first, police, who later identified both victims as Roman Catholics, said that the man and woman were IRA terrorists ore a bombing mission, whose, bomb had exploded prematurely. Forther investigation proved that this was not the case,

#### Full 84-Day Trip Seen for Skylab

HOUSTON, Jan. 11 (UPI) .-Skylab officials said today that "nothing at all" stands in the way of the third and final space-station crew setting an 84-day endurance record that should stand for years.

The Skylab program director, William C. Schneider, said a review of the supplies of food and clothing, electrical power, controlling gas and other factors had given officials confidence that there will be no trouble in the crew's staying 12 weeks aboard the 100-ton orbiting ship. The astronauts passed the 57-day point today.

"There's nothing at all in any of those areas that gives us any doubt about the 84 days," he said. I think Skylab will be remembered because it was proven that man can go up into space and do useful work in a variety of categories."

ATHENS, Jan 11 (UPI).—The od, cent a letter of protest to acting archbishop of Greece, Greek President Haedon Gyzikis

special synod to elect a primate said that they will not accept the election outcome. Wa will not recognize the new archbishop as properly elected."

# In Iowa Congressman Tests

Ed OLeary, a member of the local AFL-CIO council and head of the Letter Carriers Union in Fort Dodge, commented: "I'd 1 :e to put my voice in with those demanding impeachment. It's a question of honesty, Mr. Maync. Every time Nixon goes on TV, it's a laughing stock. I'm not saying this to you as a political thing. I'm saying tt for the good of this country."

Walter Stevens managing editor of the Fort Dodge Messenger, said: "I think people here are worried about the disrupton of impeachment, or even resignation. They think the President has been badly crippled by Water-gate and many of them are very distillusioned with him. But impeachment is a frightening thought around here."

Mrs. Alice Mendenhall, Republican chairman of Dickinson County, had this to say: "As far as Dickinson County is concerned, I think people trust Wiley's judgment. They aren't pushing him for impeachment. But if he decides to vote yes, they'll support him. I hope they'll still sup-port him if be votes no." Mrs. Alice Martin, wife of a veteran and a student herself at the Community College in Algona, said: "If he votes for im-

hurt him around here. If he votes against, well, I'm not so sure about that."

Deschment it certainly will not

Up for Re-Election Rep. Mayne, 56, is a trim, graying, self-assured conservative who is quickly recognized in many parts of his district. He graduated from Harvard University and the University of Iowa Law School, has practiced law in northwest Iowa for 20 years and is a past president of the Iowa Bar Association. He is up for re-election

"I have not found impeachment to be a burning issue," Rep. Mayne said. "You can tell from the questions that the first concern around here is more im-mediate and tangible. It is whether we are going to have enough gasoline, whether there will be enough fuel oil if this weather continues... But oh-viously people here are quite that impeachment is a possibility and that I am in a position to have to face it

soon and publicly."

In answer to questions about impeachment, Rep. Mayne carefully avoided either supporting Mr. Nixon directly or attacking him. He conceded to several audiences that he was well aware that Watergate was going to have an effect on Iowa congres-

sional races this fall. "Tve never supported Nixon 100 percent. he said. "nor will I ever do so. If the evidence is there to convince me, I will vote to impeach him. It is not an easy

able White House official.

pay state income taxes. However, Mr. Nixon's principal attorney in the White House ne-gotiations with the state said that he still takes the position that the President is not a resident "for income tax purposes."

Complex Law

Attorney Dean S. Butler said that California court cases have held a person can legally be a resident for purposes of voting, divorce and other matters yet not be a resident for income tax purposes. One element of the complex California law stressed by Mr. Butler is Mr. Nixon's long absence from California.

Depending on rulings by the U.S. Internal Revenue Service, which now is re-examining Mr. Nixon's tax returns for at least the first four years of his presidency, there is a possibility that the President actually could save on overall tax hability by becoming a California resident for income tax purposes. .

been frozen or has additives in it, So you put the fresh stuff in a bowl, slide it into their cage and when you come back the next day, the little critters have cleaned out the bowl"

Dr. Horst said that vampire bats rarely attack human beings. but in the wilds feed on livestock and other warm blooded animals. At dinner time, the bat lands on an unsuspecting cow, makes a small bite through the skin and quickly sucks up as much as an ounce of blood

Since the animal can double its weight at feeding, which

10 Years After Surgeon-General's Report

## Smoking Up in U.S. Despite Health Warning

By Jane E. Brody

NEW YORK, Jan. 11 (NYT) .-Ten years ago today, the surgeon general of the United States issued a momentous report citing cigarette smoking as a major hazard to life and health. Yet the anniversary of that 387-page document finds cigarette sales at an all-time high, per capita consumption increasing and 3,000 teen-agers becoming new smokers each day.

Desptte repeated scientific confirmation of the surgeon general's warnings, an ever-expanding list of smoking-related risks, an intense educational effort, restrictions on cigarette advertising and a growing force of nonsmokers seeking to limit smoking in publie places, about 40 percent of men and 30 percent of women are cigarette smokers.

An estimated 10 million Amer--mostly men-have quit signrettes since the report was issued, but the population growth and a steady influx of new smokers have increased the ranks of current smokers from 50 million in 1964 to 52 million to-

However, public health officials estimate that the report and the studies, warning; and educational efforts it generated helped to reverse a trend that

lion smokers.

At the same time, health cou-

Thus, smokers of today are puffing on less potent and, presumably, somewhat less barm-

nicotine.

Dr. Luther L. Terry, the former surgeon-general who issued the 1964 report said: "In general I'm encouraged by the progress of the last decade and optimistic about the future. But I also have some important reservations.

"I'm most discouraged by our lack of success with youth." he explained. "There basu't been a significant drop in smoking among young people. In fact,

Sludge Dumped by City

## 20 Square Miles of Horrors Feared Oozing Toward N.Y.C.

Just over the horizon from Rock-away Point, one of New York City's outer edges, one of the world's great environmental hor-rors may be preparing to turn against the people who created it. Covering the seabed for 20 square miles, it is called the "dead sea" and it is there, 12 miles offshore, that New York and surrounding cities have dumped their sewage sludge-about 5 million cubic yards a year-for four

For miles in any direction from the site the sea floor is covered with material described by one scientist as resembling black mayonnaise. It is toxic, smells like rotten eggs and contains huge counts of fecal coliform bacteria as well as the viruses of hepatitis,

encephalitis and other diseases.

Because the dumping ground
was so far out to sea, the city
believed it would never hear from Its sludge again, but the city was wrong. The mass slowly grew and around 1970 it began to move, creening back to haunt Nev and the beaches of Long Island. Some scientists who have been studying the sludge mass have concluded that it is moving about one mile a year and that it is headed roughly northeastward toward this beach and those of

Fire Island National Seasbore, Other scientists concede that the mass is moving, but say they cannot be sure of the direction or whether, once a certain point has been reached, the sludge might not draw back to its former

Mr. Ford's statement of White Several studies are noder way. House willingness to negotiate with the Senate Watergate com-Scientists are sinking sampling devices to the seabed to analyze mittee on release of some of the the contents for organic matter and concentrations of heavy metals-two of the principal in gredients of sludge.

These studies have placed the leading edge of the sludge at 2 to 3 1/2 miles from the Long Island beaches, although one re cent expedition found 2 small bed only half 2 mile away. Three years ago the sludge was ap-proximately eight miles from the

"We're not sure why it's moving and we're not sure when it started," said William H. Harris. a marine geologist from Brooklyr Conege, who is directing a study for the New York City Institute of Oceanography. "But in my own mind I feel there's a good chance the stuff will hit the heaches in three years."

Although Mr. Harris emphasized that further study will be required, he said the sludge movement might have begun when the dump site simply filled up and further dumplog caused the ma-terial to spread outward with ocean currents.
The center of the "dead sea"

area has long been a source of fascination and horror to environmentalists, During Earth Week in 1971, it was voted as one of the top 10 ecological disasters in the In its center, nothing lives. The

## Mr. Nixon and the Milk Deal

"Nobody gets anything back as far as the general contributions are concerned in this administration. Second, as far as those who receive them are concerned, they must be accepted with no misunderstandings, expressed or implied, that anything is to be done. as a result of those contributions, that would not be done in the ordinary course of events." -President Nixon, in his press conference of March 27, 1973.

"In terms of campaign confributions I have had a rule . . . I have refused to have any discussion of contributions. As a matter of fact, my orders to Mr. [Maurice] Stans were that after the campaign was over. I would then send notes of appreciation to those that contributed, but before the election. I did not want to have any information from anybody with regard to campaign contributions."

-President Nixon, in his press conference of Oct. 26, 1973.

Well, after the months of denials and the months of litigation over access to evidence. it now turns out that, yes, Mr. Nixon knew guite a lot about the milk producers' contributions. The White Roose published on Tuesday a long and intricate answer to the charges of corruption in the 1971 decision to raise milk-price supports. The President now concedes that be did indeed know of the proffered contributions when, on two occasions, he made decisions of great importance to the dairy industry.

Mr. Nixon defends himself by arguing that he never took these financial offers into account, and that he made his decisions so:ely on the public and stated grounds. The contributions, he emphasizes, were no more than the customary campaign assistance from professional lobbying organizations like, for example, the labor unions that are the Democrats' mainstay. It is perfectly legal, of course, for a lobbyist to make a donation to a political campaign, as long as it is not contingent on a specific official action. To make a firm agreement exchanging a contribution for a specific action by a public official, on the other hand, gets into the reaim of bribery. Bribery is not only a crime but, under the Constitution, it is grounds for impeachment. The distinction between a legal contribution and a criminal bribe may seem a thin distinction to establish, in the turmoil of actual political campaigning. But in this case a great deal turns on it, and the best way to approach a judgment on the milk case is through its chronology:

• In August, 1969, a lawyer for the Assoclated Milk Producers Inc. (AMPI) put \$100,000 into a briefcase and delivered the briefcase to Herbert Kalmbach, then Mr. Nixon's personal attorney. The White House paper published Tuesday says that Mr. Nixon had no knowledge of this contri-

September, 1970, Charles W. Colson, then a presidential aide, wrote a memo to Mr. Nixon telling him that the AMPI had pledged \$2 million to the 1972 campaign. "That memorandum was attached," the White House paper says, "to a presidential briefing paper for the courtesy meeting between the President and the AMPI representatives of September of 1970." But, the White House document continues, there was "no mention of the asserted pledge during the meeting." The 1972 Nixon campaign was evidently getting off to an early start, since the 1970 elections had not yet been held.

• The promise of \$2 million was repeated on Dec. 16, 1970, in a letter to Mr. Nixon from his old associate Patrick J. Hillings, a lawyer then representing the AMPI. The White House says that Mr. Nixon never saw that letter. But it arrived at a moment when the administration was considering import quotas on dairy products. Two weeks after Mr. Hillings wrote his letter, the President imposed the quotas. The White House argoes that the President's quotas were. after all, iess favorable to the dairy industry than those recommended by the Tariff Commission on purely economic grounds.

• The climax to the AMPI's lobbying effort, and the incident around which the charge of scandal mainly revolves, is a meeting held at the White House on March 33. 1971. A few days earlier the then Secretary

of Agriculture, Clifford Bardin, had turned down the dairymen's demands for a higher support price for milk. On March 22, the AMPI donated \$10,000 to Mr. Nixon's campaign. The following day, the way thus prepared, the dairy spokesmen came in to eee the President.

"Prior to this meeting," Tuesday's White House paper says. "a staff memorandum was prepared as a briefing paper for the President. That paper briefly noted that the . dairy lobby - like organized labor - had decided to spend political money . . ." At this meeting, the White Rouse declares. "There was no mention whatsoever of campaign contributions."

Two days later, on March 25, 1971, the Agriculture Department raised the milk supports. That increase added more than \$500 million a year to milk producers' income. Mr. Nixon argues that the reasons were pressure from Democrats in Congress, the need to increase milk production, and the normal pursuit of farmers' votes. As it turned out, the dairymen gave less than their pledge. Their contribution came only to \$437,000 which, as the White House notes, is less than 1 percent of the total funds collected for the 1972 campaign.

Throughout this paper there is the constant theme of Mr. Nixon's defense in this and all the other scandals: Everybody does it. In this instance, certainly, other people have done it. One of them was former Sen. Daniel Brewster, a Democrat from Maryland, who was sentenced to prison for accepting contributions that a jury found to be bribery.

The Brewster case is a particularly enlightening example in this gray and ambiguous corner of U.S. national life. The senator was fighting a mail-rate increase, and he took a contribution from a lobbyist representing a mail-order house. Was it a legal contribution, or corruption? Federal Judge George L. Hart told the jury that it was entirely proper for a company to make a contribution if it is only in the "hope" that a politician will maintain a general position helpful to the donor. But the jury decided that there was more involved in the Brewster contribution than "hope," and more than a general

That is the question which, in this larger case, now goes to the larger jury of the American people. The record is presumably not yet complete, but it shows a close correspondence between pleages and contributions on one hand, and favorable actions on the other. As the White House now acknowledges-belatedly, as usual-Mr. Nixon was quite aware of the money that was being thrown on the scales in these public decisions. In fact, in many respects the "explanation' of the President's role in the milk case is reminiscent of his "explanation" of his larger Watergate involvements in the compendious May 22 document of last year. Like that document, this one constitutes a kind of shadowy, preemptive confession, a belated acknowledgement of certain presidential involvements that had hitherto been denied, and an attempt to precondition the public's response to possibly worse evidence to come.

(A future editorial will deal with Mr. Nixon

THE WASHINGTON POST.

### International Opinion

Kissinger's Latest Trip

For the fourth time in three months, Mr. Kissinger is going to the Middle East. As usual, his journey can be interpreted either optimistically or pessimistically One can deplore that yet another first-aid mission should be necessary to "save the collapsing cease-fire," or one can hope that the journey presages 2 new move forward on the uncertain road towards peace. Both interpretatione are probably right. The process of peacemaking in the Middle East is like a

blcycle ride: loss of momentum can lead to collapse. The fear of collapse is everpresent but is also creative, since it provides an incentive for further movement forward . . . Mr. Kissinger's task is to convince both sides . . . that disengagement is in the immediate interests of both of them and that if each side puts off its political demands until the next phase of negotiations then both sides will have an interest in that phase's success.

-From the Times (London).

## Oil: Issue Is Price, Not the Cuts

By Hobart Rowen

any one nation alone.

WASHINGTON-It's taken quite a while, but statesmen and business leaders seem finally to have awakened to the grim fact that the power of the Arab oil cartel to set extortionate prices is a graver threat to the rest of the world than production cuts and embargos, which are mere tactical

Or, to put it another way, the restoration of production cuts (for which Japan and Europe have been begging) or the abandon-ment of the embargo (for which) U.S. stock traders have been yearning, will leave the Western

The 400 percent increase in the \_countries as well price of oil set by the cartel-the Organization of Petroleum Exporting Countries (OPEC) - in 1973 would require such a shift of financial resources to the oilproducing countries that it could cause a world-wide economic upheaval and depression.

#### Growth Ceiling

For example, oil consultant Walter J. Levy estimated that Europe's oil bill this year will skyrocket to about \$50 billion. compared with \$11 billion in 1972. Japan's costs would jump to \$17 billion from \$3.6 billion (erasing its entire reserves). And these cetimates assume, first, that there would be no further price increases, and second, that oil demand would be held down to the 1972 level, putting a celling on economic growth.

World Bank executive directors have met to receive comments from individual countries on a staff report which grimly concluded that the higher prices "present a radical turning point in the outlook for the world econ-

With the single exception of West Germany, no industrial country had a trade surplus in 1973 as large as its projected increase in imported oil costs. If prices stay at the exorbitant levels set by the cartel, the international monetary system could be wrecked by the effort to cope with a vast churning of funds between the ex-

porting and importing countries. Most of the Arab oil-producing countries, even if they wanted to: are not in a position to increase their imports fast enough to help the industrialized countries boost their export earnings with which to pay for oil.

#### Monopoly

The special concern at the World Bank is self-evident: The long and painful effort to enhance the growth and development of poor countries will be totally aborted by the quantum jumps in petroleum prices enforced by the Arab monopoly.

Yet, as MIT Professor M.A. Adelman pointed out at the recent American Economic Association do you work? meetings, the U.S. government persists in identifying Saudi Arabia—the cartel leader—as a friendly country, even though they financed the war against Israel (a client state of the United States) and then proceeded to wage an even more effective economic war against the United States and against other powers with whom, presumably, the United States is allied in many

The Europeans and Japanese, for their part, went through shameful conturtions to get on the good side of the Arabs, which will give them the dublous privilago of putting their citizens

through the wringer of a depres- at the first sign that they are sion to pay the new prices for oil, relenting on the embargo. The price, not the embargo, is If there is a ray of hope, it comes from Secretary of State Henry Klasinger's belated acknowledgement, during his San Clemente press conference, that a four-fold increase in the price of oll could bring the world face to

face with a "massive depression"a problem that cannot be met by and decide what economic weapons they can employ in retalia-And he suggested that "a policy of unrestrained price increases" encourage further economic ageventually would hurt the Perpression. sian Gulf and other producing

Kissinger didn't provide specific numbers, but the World Bank study gives a sense of the awful spot the Western world has allowed itself to Le maneuvered into. Assuming only an \$8 price for Middle East oil by 1980 (which has now already been surpassed), the Bank study estimated that the OPEC country reserves would balloon to about \$280 billion from a mere \$5 billion in 1970. At that level, the OPEC countries would hold 70 percent of world reserves

Unrestrained

totalling some \$400 billion. The Western world can proceed to to bankrupt if it wants to and let a small group of nations who happen to be rich in oil reserves call the tune. That will merely encourage other nations who can create a monopoly of some other key raw materials to vie with the Arabs for a controlling share in the power structure.

Or, the consuming countries can get together in a mutual, cooperative effort to develop new sources of energy, and avoid the cutthroat scramble for oil that helped propel oil prices higher than the wildest Arab dream. The danger, I think, is that the Western world, hungry for shortterm relief, might temper a re-

solve to get tough with the Arabs

#### Israeli Military Role

## Guns and Democracy

By C. L. Sulzberger

DARIS.—In terms of politics, the most interesting feature of the Israeli crisis precipitated by last October's war was the astonishingly modest role played by the armed forces in the subsequent elections in December.

The troops voted in a massive way, as compared with the vote of serving soldiers in other de-mocracies. But if one judges by results, they voted with the same normal divisions of opinion as would have occurred in peacetime armies of free political systems elsewhere

Much is made of the leading role played by flamboyant generals in the drama begun by the Yom Kippur conflict and continuing as a background to the Geneva peace conference.

#### Dayan and Sharon

This is especially true with respect to Defense Minister Moshe Dayan, hero of Israel's previous armed conflicts, and Arik Sharon, architect of the drematic Suez Canal crossing in October which encircled an Egyptian army. But Dayan is technically a civilian today and, like Sharon, a reservist. Both can therefore hold

political office. In many contemporary lands, battlefield victories popularly linked with the names of men like Dayan and Sharon, both of whom are tied to political fac-tions, might have had a strong reflection at the polls or might even have led to abnormal and extra-parlimentary intervention. One insurance against politicking by Israel's military is the constitutional provision that career officers can not seek civilian office-without first retiring. The period since Israel was created in 1948 has seen career officers' putsches create regimes in a host of contemporary governments including Egypt, Syria, Iraq, Algeria, Libys, Uganda, In-donesia, South Korea, Zaire, Ni-geria, Ghana, Chile, Peru and

in today's time of change when the so-called Third World is coming into its own, it is an understandable occurrence that professional officers, with their pa-triotic zeel, discipline and distaste for corruption, should seize

#### Turbulent Area

ocretic rule.

Dayan has been cruelly blamed for misfortunes tincluding large casualties; that bave piled up modelled.

since the You Kippur attack on Israel and Sharon was contrast. ingly acclaimed for his carry. crossing and encirclement of the Egyptians. . In an artificially over simplified

political sense. Sharon represented an extreme right and have ish faction in comparison with Davan's relatively (and only rel stively) dovish and accomposating position. Yet both many backers and both men adhered rigidly to the ultimate test as a laid down for normal democipies prices judgment by the ballet box. Nor was there the signises thought of a potential coup.

On more than one occasion the saked high Terrall

mave asked high Israeli offices whether they considered it posterior sible for a military putsch to seize power in their embattled little country Gen Aharon Venterland little country Gen. Aharon Yara retired chief of intelligence acknowledged that theoretically this could be possible; all me needed was intelligence, armor and aircraft, es shown both in

Iraq and Greece. Nevertheless, this "technical" observation was not only theore. ical but actually impossible. rael's democratic spirit is diff. cult to minimize and this spirit is based upon a tradition that the army is subject to citibat authority.

The great majority of the armed forces are civilians called up from regular jobs whenever the air force has a majority of the air force has a majoray of career personnel; the small may, is about 60-50. In the arm, career personnel begin with a few noncommissioned officers and then, from sergeant majors m the percentage increases.

#### Deeply Imbedded

But, as Yariv pointed out the officer corps does not live apart from the rest of the population Colonels and generals come from every sector—commerce, village, towns, kibbutzim, There is no common social denomination for the officers. The concept of democracy is deeply imbedded.

In past years, when Israeli military genius was unchallenged, European observers often compared its armed provess t that of 18th-century Prusse, which maximized use of interes communication lines against

larger, hostile neighbors. But one shouldn't forget as other European comparison, mi-derscored by the recent elections. Regardless of strain and crisic use of its mainly reservist arm, the chances of military dominition of Israel's political destine seem no greater than that of switzerland, on whose dema-cratically available civilian so diery Israel's army was first

## Ex-Astronaut on ESP

By Edgar D. Mitchell

would also have learned that psychic research is only one aspect of the larger topic usually termed nostics, the study of Surprised When I first began looking at

psychic phenomena in 1967, I was quite skeptical. I had spent years learning the objective methods of science, and along the way I had unconsciously picked up the negative attitude toward psychic research that is scientists who do not know much about it. But to my surprise, the high quality of the research made it impossible for me-on the very grounds of scientific method and objectivity—to dis-believe the validity of the findings and their implications for

My interest in psychic research had actually begun as a search for concepts that would explain and give meaning to life-con-

of Greece, where all and sundry

feel free to taunt, eermonize and

ference of approach due perhaps to the fact that Spain is big and

etrong and does not take kindly

to foreign intervention in its in-

ternal affairs, whereas Greece is

little and weak and its attach-

ment to the West, for better or

for worse, is taken for granted?

Is this another aspect of fair play

in the democratic world of ours?

Athens.

## moci Judge Refuses CIA Director A Chance to Testify on Book

By Lesley Oelsner

WASHINGTON, Jan. 11 (NYT). \_A U.S. district judge has turned nown the request of the director . of the CIA for a chance to testify shout a book that the agency is trying to censor. He also upheld a ruling that he had made earlier ordering the agency to turn over certain documents to the book's authors and publisher and their expert witnesses.

The book, whose co-author is a

## FBI 'Bugged' Socialist Unit For 18 Years

By Farnsworth Fowle

NEW YORK, Jan. 11 (NYT) .-The federal government has ac-knowledged "electronic surveil-lance" of members of the Socialist workers party from 1945 to 1963. It has further ac-knowledged a "Socialist Workers party disruption program," con-ducted by the FBI from 1961 to

A reply filed in federal court to the party's complaint of July 18, 1973, was made public yesterday at a news conference called by the Political Rights Defense Fund, which is raising money for the costs of the court action. The Socialist Workers' 1972 presidential candidate, Linda Janness,

took part. The acknowledgments were not couched in apologetic language. The government reply said the "basic purpose" of the disruption program was "to alert the public in limbs to the fact that SWP is not just another Socialist group but follows the revolutionary principles of Marx, Lenin and Engels as in-terpreted by Leon Trotsky." The party is seeking further informa-

tion on the "disruption program," The FBI made public last Dec. ... . 6 a directive of its late chief, J. Edgar Hoover, issued to all of-fices on May 10, 1968, to begin an attack against groups and individuals who spout revolution and unlawfully challenge society to obtain their demands." This and other counterintelligence pro-grams were terminated without explanation in a Hoover directive of April 28, 1971. The orga-nizations and individuals were not identified at that time.

In the document made public resterday, there was a general denial of unwarranted use during the 1972 and 1973 election cam-paigns of devices to intercept confidential conversations of SWP members, supporters and candi-dates. It acknowledged knowing of only one such wiretap—in 1972, on the home in Los Angeles of James P. Cannon, then national chairman, on the basis of

#### French Official Is Identified in Canard Bugging

PARIS, Jan. 11 (Reuters).— The concierge of a building housing the offices of the satirical weekly Le Canard Enchaine today formally picked out at an identity agent alleged to have been involv-ed in bugging the Canard's offices. But Micheline Bertin later falled to pick out the voice of tha same man, Inspector Georges Laborde of the Direction de la Sur-veillance du Territoire, when tested again by Examining Magistrate

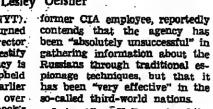

Alain Bernard. Mrs. Bertin, who said Inspector Laborde had saked her threa times for the keys to the Canard'a offices, said, "I know faces very well. In my job as concierge I have to watch who I give keys to. This man came to see me several times, and I saw him moch more than any

Inspector Laborde told Magis-trate Bernard that he had a beard at tha time she says she got to recognize him and added that "160 witnesses [his colleagues at work? can confirm it." Four other witnesses called today-two workmen, an electriciao and the concierge's husband-all failed positively to identify the

The secret agent has filed libel suits against a weekly news magazine and a radio station which quoted Mrs. Bertin as saying that he took part in the attempted bugging.

was announced. State Chief Minister Chimanbhai Patel met Prime Minister Indira Gandhi in New Delhi today and pleaded for more food for the state from central stocks. which themselves are reported running dangerously low hand-to-mouth year.

### Gunman Stalked Rich Chicagoan For 2 Days, Then Changed Mind

CHICAGO, Jan. 11 (AP: Death stalked Chicago business-man Samuel Popell for two days before a would be killer had a change of heart and contacted authorities, the police said

They said two California men had been hired to kill the kitchen-gadget millionaire and one of them followed Mr. Popeil for two days with a pistol, waiting for a chance to strike. The man never got the opportunity and returned to Callfornia where he and another man decided to confess tha plot

to the police, the authorities said. In California, the police arrested Mr. Popell's estranged wife, Eloise, 43, and Daniel M. Ayers, 37, of Santa Ana. They are accused of hiring the two men, who were not identified. The police said both men may escape charges in return for their testimony at the trial of Mr. Ayers and Mrs. Popell. who were arraigned yesterday in Long Beach on charges of conspiracy to commit murder. A trial date will be set at a preliminary hearing Jan. 31,

Investigators in California said the alleged deal was for \$35,000 before the murder and \$25,000 after. The authorities said that had Mr. Popeil died before a divorce from his wife. Mrs. Popell would have inherited at least one-third of an estate estimated at \$150 million. Mrs. Popeli-was a waitress in a Chicago restaurant before

she met her husband. Through a lawyer, Mr. Popellemada only one comment on the incident: "I'm happy to be alive."

HISTORICAL TREASURES ENDANGERED - One of the four ancient Roma; horses over the main entrance of St. Mark's Basilica in Venice being removed by workers this week to begin a long-debated attempt at saving them from the ravages of pollution. After more than a decade of talks the church decided to move the 1,900-year-old horses to St. Mark's museum for study by experts and a possible coating with a protective wax to seal out chemicals from nearby industries.

### Encyclopaedia Britannica to Change Format edition. The Britannies also Britannies is that it's an attempt published an annual yearbook. to solve the insoluble problem."

Industry sources suggested that

rising abroad, and this

the Britannica's sales have been declining in the United States

would be reason enough to in-troduce a ocw edition.

Topical organization has been

a dream of encyclopedists for centuries. Diderot's French en-

cyclopedia began with topical

organization, then became aipha-

betical as entries and difficulties

By Israel Shenker

NEW YORK, Jan. 11 (NYT) .-The Encyclopaedia Britannica is coming out in a new form—its first major innovation in more than 200 years of publication.

Plans for the new version of the American-based encyclopedia have been in progress for about 25 years, and active work has been under way for at least a dozen years.

In its forthcoming form-the first complete sets are due Feb. 22, with the publication date in mid-March — the encyclopedia will be a three-part work.

The retail price is expected to be \$550, compared with \$498 for the current edition. A New York bookseller said he expect-ed to offer sets for about \$350. First Volume

The .. first. Volume Propagate sets forth a classification of all knowledge into 10 parts, each

with a long essay. Mortimer J. Adler, director of planning for the Britannica, called "the circle of knowledge."

He suggests that a reader may

enter or leave at any point. Next comes Micropaedia, a 10volume reference dictionary of 10,300 pages, lavishly illustrated

Finally, there is Macropacdia 19 volumes of substantive essays ranging the world of learning, with articles from 750 to 250,000 words each. Twelve articles are

The encyclopedia, conceived in Edinburgh, Scotland, in 1768, was first printed there in three volumes, completed in 1771. Encyclopaedia Britannica Co. was purchased by Sears, Roebuck and Co. in 1930, but the reference work has been published in this country, officially, since 1910. Before that, there were many

pirated editions. The encyclopedia has not had a new edition since the 14th, in 1939. Since then, volumes have been revised, but without any numerical identification as to

#### Ireland to Bring **Family Planning Group to Court**

DUBLIN, Jan. 11. (AP: .-The Irish Republic's attorney general is taking the country's Family Planning Association to court for allegedly violating laws banning the advertising and sale of con-

The decision to prosecute was made after the republic's supreme court upheld the right of a private citizen to bring cootraceptives into Ireland, which is 95 percent Catholic.

Three summonses have been issued against the planning group. The first alleges the association offered contraceptives for sale. The second accuses it of breaking consorship laws by distributing family planning literature. The third accuses the association of advertising contraceptives.

A hearing is set for Feb. 19. The summonses were issued Dec. 20, the day after the Supreme Court ruled that the 28-year-old wife of a Dublin fisherman had the right to import contraceptives. However, this historic decision did not permit the sale of them.

#### Sieff Leaves Hospital

LONDON, Jan. 11 (AF).—J. Edward Sieff, 68, president of the Marks & Spencer chain of stores, yesterday left a hospital where he had been treated for mouth wounds inflicted two weeks ago by an armed intruder at the Sieff home in London Arab terrorists claimed re-ponsibility for the attack on the prominent Zionist.

CHURCH SERVICES

There are none of her more recent plastic creations—the material can be so easily damaged that collectors are reluctant to lend her work in plastic. But the woods are varied and good. Her secretive black box patterns, barred and cubed and shelved and rooted, some made with doors, some immensely wide and tall, others cozy as a doll's house with chimney stacks and roof tiles, seem ageless and dense as a forest, A few are sprayed with gold and shimmer graciously but the form remains dense and close-packed. It is hard to believe that Louise Nevelson is 74, the geometric forms sculpted in

Hyper-Realism, Galerie Isy Brachot, 62 Avenue Louise, Brussels, to Feb. 2.

wood are so contemporary.

This gallery too turns to npto-the-minute art, new realism. This must be the most visited art show in Brussels this month. The tablean scenes are a powerful draw: Duane Hanson's two boxers, one just felled with swollen eye and cut mouth, the other poised over him, both uncanny replicas of real flesh and blood down to drops of sweat glistening on black skin, have little in common with conventional lifesize sculpture. John de Andrea'e mide woman in polyester leaning on a handsome oak table with negligent grace has a star-tlingly real sparkle in her eyes, exactly lifelike blue-veined flesh, thick mop of pubic hair, well cut toenails. Upstairs, a woman sunbathes in a deckehair under a

bright lamp, another sits on a

of couples, one unclothed, the an older, fully dressed couple with a shy and touching air, are painted onto mirrors so that they seem to loom out as fully dimensional as the tableau figures. As one alert younger visitor remarked, it is a bit like a visit to Madame Tussaud's WAXWORKS Thomas Blackwell imparts real

beauty to his paintings of motorbikes, all accurately observed from photographs he takes himself under lights arranged to get the reflection he wants, Kacere specializes in curves, concentrating on fleshy female undulations thinly draped with folds of material; his hyper-realism tends to cross the frontier of erotic art into magazine titilistion. The Belgian Delcol juxtaposes his female flesh with chrome or metal objects. revolvers, faucets. Most are American artists, but a small group of European artists, quietly working in this vein for some time, now find themselves included in a mainstream movement. Peter Klasen's dental chair, Gnoll's textured painting of man's suit jacket, De Clerck's garden tool against a house, fit in with

RONA DOBSON.

Paris

dignity.

Chaibia, Galeria l'Œil de Bœuf, 58 Rue Quincampoix, Paris 4, to Feb. 2.

Chalbia is a Moroccan woman who, about 10 years ago, received a vocation as a painter, Not hav-ing painted before, and unfamiliar with the art styles of the day,

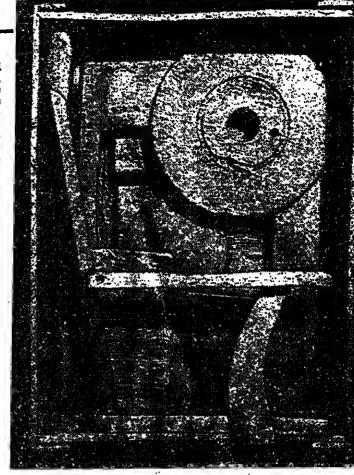

she has produced works with all the vigor and authority and much of the stylistic approach of the best of COBRA, In fact she has an advantage over COBRA artists who are obliged to conceptualize their approach and at the same time expend energy keeping intellectuality at arm's length. Her taste and feeling are not obliged to make a detour through the mind-they burst out in immediate delight on her caovas. The colors are raw and some of them have the curious flavor of violet candy or exotic spice. The draftsmanship is unlearned, awkward and splendidly authoritative.

James Rosenquist, Galerie Sounabend, 12 Rue Mazarine, Paris 6, to Jan. 30. Standard pop, hy a painter who helped set the standards of pop.

Szkékely, Júri Juhn and Paysages. Galerie Rencontres. 46 Rue Berger, Paris 1, to Feb. 2.

Szkékely assembles elements of

wood and metal, repetitive forms from broken pianos, etc., into handsome little constructions that are often effective and even expressive. The engravings of Jiri John are delicate patterns from which discreetly emerge such organic elements as grains of wheat or seeds of various sorts leaves or fruit, "Paysages," title of the third show in this gallery, is crossed out by a large X, suggesting that the works displayed are the nega-tion of landscape painting—and such, indeed, is the case. Works

"Royal Winds HI" by Louise Nevelson (1960), now on exhibition at the Palais des Beaux-Arts in Brussels.

by 18 artists including Babou, Cueco, Fanti, Monory, Recalcati, Theimer, Zeimert, et al.

## New York's Pro Musica To Disband

NEW YORK Jan 11 (NYT).— The New York Pro Musica Antique, for two decades the leading ensemble in this country dedicated to the performance of medieval and Rensissance music. will be disbanded at the end of its current season. The amnouncement was made by Mrs. Nosh Greenberg, president of the Pro Musica board,

The decision to end the operations of the ensemble was made reluctantly, but unanimously, by the board members in a meeting on Dec. 25.

"Money was a major factor," Mrs. Greenberg sald, "but the uncertainty of bookings and the fact that George Houle, the current musical director, had decided to return to California were also significant."

Pro Musica, which gave first public concert at the New School for Social Research in April, 1953, was founded by Noah Greenberg, who was its musical director until his death at the age of 46 on Jan. 9, 1966.

Under his dynamic leadership, the group quickly established its authority in the early-music field, and despite the recondite nature of the works it sang and played and its pioneering in unfamiliar performance styles, it achieved extraordinary popularity.

At the height of its activity and influence, Pro Musica was giring some 175 performances annually in America and abroad. In this, its final season, it is doing about 100 performances. Mr. Houle, who taught at Stan-

ford University before joining Pro Musica, is returning to California to teach. He said Wed-nesday that he regretted deeply the "passing of a great institu-tion that served so long as a beacon for all people interested in early music.

Mrs. Greenberg said that the nonprofit Pro Musica corporation is faced with liabilities." "If the tours and performances we have to fulfill do not lose money, and if we can sell our library and instrument collection for what we think they are worth, we should just about come out even."

She estimated the value of the library at \$50,000 and that of the instrument collection at \$30,000. "We will sell them as an intact collection, if possible,"

# York: Musica Disband Some Revealing Omissions

By Souren Melikian NDON | HT) -In "Art at

Auction," a Sotheby Parke net survey of the 1972-73 nons, the omissions are often significant as the entries. instance, the "antiquities" artment (in charge of all sorts ntiquities as well as Nepalese, etan, Indian, African and

nitive art, has nothing to say ut Near Eastern objects or istan bronzes. For good 50n: They did poorly in the 2500ms. Instead, there are ashy pictures of the Rarotonga nd figure (from the Cook Isds) that sold for £44,000 in ember, 1972, and of a Tibetan c. bronze figure that made .000 in July, 1973.

his illustrates the strengths at weaknesses of "Art at stion"-it is not a guidebook realistic price levels. But it a suggest what categories are ng well and which ones are ng to get full promotional atment in seasons to come. is applies to objets d'art as does to paintings (IHT, Jan,

#### Chinese Objects

Thinese objects sold extremely ii. To pay £53,000—even in devalued pounds of June, of enthusiasm. The 15tharacter mark of the emperor uan Té (1426-1435), a mark e turquoise-blue glaze on the a and even subtler white glaze aide were the main attractions. it is; least for those who missed two dragons incised under the ce white glaze. The same dish to d been sold in 1946 for £150 d again in 1968 for £3,800 The value is that it is probably
the finest example of its type
to be seen at auction or elsohere. In addition, it had been the famous Parfitt collection;

ince its provenance made it en more attractive. More significant was the price id at the same sale for a uch later piece—£50,000. This as a small slender vase (15.5 intimeters high) with no decora-on. The glaze, characterized "peach-bloom" by the auc-oneers was perfect. However-

erfect, it would hardly have tched such a price had it not ice belonged to J. Pierpont A few days later, a pair of

ompagnie des Indes covered breens in the shape of geese. f the much later Ch'len Lung erlod, sold for £72,000, showing tat the price gap between early nd late Chinese works has losed. The geese (39 1/2 cenmeters highl had a hideous odergiaze decoration in mauve, still lue, turquoise, green, red and lubber few more mind-boggling shades. wo years ago, the price would

#### Water Buffalo

The tureens made the £71,000 ding water buffalo, sold March STEEL ast the buffalo was of jade and was finely carred. But once all could be argued to be the principle of their type to appear at aucion in the past generation.

Because Japanese dealers liad een behind the rising prices for binese wares and because they we suddenly disappeared from salesrooms, many European realers fear that a slump is on he borizon. But, it seems to that record prices, totally unrends, may again be expected in this category next season. I a firmly entrenched because the doors to China are closed when comes to exporting antiquities The two strongest markets for Chinese art objects remain Britain and the United States where

objects are more highly

prized than ever.

At the opposite geographical pole of the market, top quality European porcelain experienced a similar boom. A Meissen cor-feepot painted in Augsburg by Sabina Aufenwerth for her bushand Isaac Hosennestel on Böttger porcelsin might not have aroused everybody's enthusiasm. Aesthetically, the pot 121 centimeters high had little to enthusiasm. recommend—its gaudy chinoiserie borders on the vulgar. But the concealed monograms, SA and IH establishing the identity of the artist, made it unusual. The coffeepot had been in the collection of Mary Lees Johnstone and that was enough to raise the price to a staggering £40.000.

Italian faience has been affected in the same way. A Castel-Durante service painted by Nicola Pellipario around 1519 went for 230,000 last March. Again, it had all the pluses that make prices The artist was identified as was the patron

(Isabelle d'Este). The subject matter—Aeneas carrying his father Anchises from burning Troy with his son Ascanius fol-lawing behind—could be described in detail. It had been copied from an engraving by the socalled "Master of the Die" who, in turn, had been inspired by Rapbael. Plates from this service are also to be seen in the Victoria and Albert Museum, the British Museum and the Fitzwilliam Museum in Cam-bridge, England—all splendid references. In addition, the plate

in question had been successively

of the top Venetian collections in the past century), the Mannheim collection in Paris, which is even

more famous, the J. Pierpont

Morgan collection, the William

the Morosini collection (one

Randolph Hearst collection and finally in the collection of Giuseppe Caruso. one leafs through the porcelain section of "Art ab Auction," one cannot help being struck by the general upward price trend of many wares done in an academic style, highly

polished and colorful.

A pair of so-called Vienna.
Lohengrin vasea, dripping in gold on a deep-blue ground with lots of neo-medieval figures, was expensive at £1,700. A Royal Worcester porcelain wase by James Hadley, dated 1888, with a kind of neo-Remaissance decoration, was even more expensive at £1,950. If had, of course, a molded signature "impressed and printed crowned pressed and printed crowned circle mark in pnce" and a code mark indicating that it had been made in 1888 in Model No. 1264, Fanatics for detail could hardly wish for more. Aesthetically, the vases were not far removed from the earlier works that had inspired them.

These records, it seems to me, reflect a change in taste, a new affection for the academic, the saccharine 18th-century art that was consigned, a few years ago, to commercial oblivion. It seems likely that this shift in taste may cause a rise in price for Louis XV and Louis XVI knickknacks in porcelain and ormolo.
This could explain the £6,800

paid for an ebonized bonheurdu-jour (small desk) with decorative porcelain insets made in Germany around 1860. The 17th-century objets d'art that are going up in price are those that come closest to the "past," or rather, those that provide a Hollywood vision of it.

Just as significant as record prices have been the certain market weaknesses. Archaeological objects from the Near Bast—and sometimes from the West-are not doing very well. As usual, there are exceptions. The most obvious one is classical work, it lends itself to very precise dating and identification The same applies to classical Greek pottery. A very fine Attic rase, circa, 510 BC, brought a comfortable £2,800 in July, 1973. Nevertheless, archaeological objects can prove to be disap-pointing investments. A Romano-Egyptian stucco portrait from the Fayum—it was no very fine quality—fetched only \$1,200 m July, 1973, hardly more-in absolute terms—than the £950 it had made in 1964 at Sotheby's. An unusual ensemble of Roman sculpture was sold in December —it consisted of marble statues and reliefs bought in Italy in the mid 18th century by the 2d Earl of Shelburne who later became the first Marquess of Lansdowne -lt has been in the Lansdowne ever since. historical significance of this group of works should have boosted prices. There was a life-size marble formation of the size size marble figure of Paris, done

LONDON THEATER

## Comedy and Melodrama and Some Sour Notes

By John Walker ONDON, Jan. 11 (IHT).—Two sour plays this week: one-David Fitzsimmons's "Judies" at the Comedy—a comedy; the other —David Rudkin's "Ashes" at the Open Space—a melodrama.

Mr. Rudkin attempts to link private tragedy-a young couple's failure to have children-with public-the violent upheavals in Northern Ireland. In this he fails, for the personal disaster of two lives made empty and rootless is a poor metaphor for the Irish troubles, despite some heavy symbolism of the wife's miscarrlage with twins, a dead child dragging a bealthy one to a bloody, premature death.

Mr. Rudkiu is an apocalyptic playwright. His language is fierce. charged with emotion, clotted with images of blood, death, and sex. His characters describe in graphic detail the aftermath of a bomb explosion—"The nethers of a pregnant woman skewered on a bus stop spike"—and talk casually of castrated pigs grubbing up their own testicles and eating them. His language often falls into the rhythms of Victorian melodrama. The husband laments at one point: "If I had been content, content, my wife would have her womb this day."

The Writing

It is writing that is both powerful and shocking at its best and seems energized by some deep, private pain. Yet the images arc often overblown, dissipating their emotional charge. And Mr. Rudkin piles horror on horror. When the wife becomes pregnant, she not only miscarries but has to hare her uterus removed, and the couple's attempt to adopt a child ends in fallure,

The opening of the play is lighter in mood, with brisk satire at the expense of doctors and

Stratford-Upon-Avon last season,

New York critics, Producer John

Barton takes an approach to the play that is both virile and yet

academic, says Clire Barnes of The New York Times. For Earton the essence of the play is

in its wheel of fortune, with the counterweighted destintes of the

deposed King Richard and his usurping rival, Bolingbroke. The production makes much of this

even to the extent of having

the actors who play the two roles alternating each part in succes-tive performances. The tetting by Timothy O'Brien and Taztena Firth accentuates this concept of

changing balance... The other aspect of the play stressed is the

Richardson's Richard is "full of spirit and a certain beroism,"

Provor as Scott was impressive,"

Leading book publisher access manuscripts of all types: liction, non-liction, poetry, scholarly and religious works, etc. New authors netcomed. Send for tree hooklet H-3. VANTAGE Press, 516 W. 51 St., New York, N.Y. 16001. U.S.A.

counts are taken, temperature charts kept, and strange posttions suggested by the experts. It seems at first as if Mr. Rudkin is going to examine the ten-tions of a childless marriage and

and more mechanical, as spern

the reasons people want children. The husband, whose sexuality embraces men as well as women, wonders if he merely seeks reassurance of his masculmity,

But it is not long before the subject changes to the Irish sil-uation. The husband is an Ulsterman, a Protestant, who returns home for the tuneral of his uncle, killed in a bomb explosion, and finds himself alien-

sted from his family, rejected for not sharing their violent, sine plistic anti-Catholic riews.

The play becomes more selfpuylug as it conlinues, ending with arias of bitterness and misery. It is well acted by Peter Mc-Enery as the husband and Lynn Farleigh as the wife, changing troot exuberance to apathy, and Inn Collier as a succession of sex experts, and Penny Ryder as several un-ympathetic and fecund women. Pam Brighton directs.

I enjoyed David Filzsimmons's "Judies" when I first saw it at tile Howif. On his transfer to the Comedy Theatre, it remains a elever, heartless comedy of the transformation of Stanley (John Alderion) from a shy, virginal niother's boy into a randy male chauvinist pig at the hands of two zexually voracious leachers, played with bitchy relish by Pauline Collins and Christine llargeaves. It is a first play, and a very promising one, and often lunny, however much one may dislike its sexual attitudes. It is, though, somewhat thin stuff for a West End theater and is often sustained by the sensitivity of John Alderton's performance.

Under the general title of "Family Romances," a season of three plays directed by Jonathan Miller opens at the Greenwich Theatre on Thursday. The lirst production is Ibsen's "Ghosts." with a east that includes Authory Brown, Peter Eyre, Nicola Pageli, Robert Stephens, and Irene Worth, and it will be followed by Chekhov's "The Scagull" and Shake: pearc's "Humlet."

#### 'Mousetrap' Moving

LONDON, Jan. 11 IAPI.-Agatha Christic's thriller "The Mousetrap," which claims the world record for the longest run at a single theater, will close March 23 at the Ambassadors, it will reopen March 25 at Sl. Mar-tin's Theatre next door. "The Mousetrap" has to change theaters, impresario Peter Saunders and yesterday after the 8,777th performance, because the lease on the Ambassadors is running oul.

Dow Gains 19

But Brokers Describe

Increase as Technical

NEW YORK, Jan. 11 (Reuters).

—The stock market staged lis

best perfermance in more than

a week today, pushing ahead

series a fairly broad front on moderate turbover. There was nothing specific to

account fer the better tone. Analysts suggested that the cain

probably was elere technical than

anything else in view of the mar-ket's headlong retreat the previ-

eus fliree sessions. Investors also were hepeful that

the latest mission to the Middle

E st by U.S. Secretary of State Henry Kissinger would prove mere fruitful than in the past.

The Dow Jones industrial aver-

age, which had tumbled mere

than 53 points in the previous

three ressions, scored a gain of 19.27 to 241.48, while the New

York Stock Etchange cemmo:

stock index was alread about 0.51 to 50.01. Advances eutscored declines by about a 2-to-1 margin. Turnover was 15.14 autilien

shares, compared with 16.12 mil-

lien yesterday.
Ford Motor rose 1 1.2 te 41 1.4

It said it will recall 3,475 laid off employees. General Metors and

Curysler also picked up more than

a point each, while American Moters gained 1 2 to 9 1 4. Walt Disney geined 1 5 8 te

37 7.8 despite layoffs at its Dis-ncy Werld in Orlande, Plorida.

Other strong features included Burreughs, up 6 1'4 te 181 1/8,

Aluminum Co. of America 2 3 4 to 71 1.2, Kaiser Aluminum & Cheralcal 1 1 4 te 21, Precter &

Gamble 1 1 4 to 85 5 8, TEM 11

te 240, Texas Instruments 2 1 8 to 97 3 4. Poloroid 3 te 71 7/8, and Xerox 2 3 6 to 110 3 8.

Also on the upbest were U.S. Steel up 2 14 to 30 3 8, Bethlehem Steel 1 1/2 to 34, and Fiship Morris 5 1 4 to 105 3 4. The lat-

ter boosted prices on its rightettes.

Penderesa Systems rose 2 1 8 to 32 5/8, and National Cesh Regis-

ter 1 1.8 to 30. General Electric gained 1 3 5 lo

61 3 8, Eartman Kodak 4 1 4 to 107 3 4, and Du Poet 4 1 2 to

In the golds. Dome Minus fell 2 I 4 to 173. ASA 3 I 3 to 80 I 4, and Campbell Red Lake 2 to

Prices advanced in light trad-

ing en the American Stock Ex-

change. The Amex index rose

NJD Prime Investors fell 1 to 3 4. It said it may have to en-

tablish a reserve of about \$750,000

for a loss en properties to Walter J. Kassuba, a reul estate man

who has filed for bankruptcy.
Syntex climbed 1 1 8 to 51 3 4.

e in the past few days.

moves do not imply a change in the Bundesbank's tight-meney policy and are meant only to compensate for the flight to the dollar. However, he did concede at a press conference that, in light of slowing tendencies in the economy, monetary policy might be loosened soon.

Moves announced today in-

anded: • The end of the 80 percent minimum reserve requirement on

net new foreign deposits with German banks. ● A 5 percent lowering of

minimum reserve requirements for domestic hank liabilities. Latest available figures show that reserva requirements totaled about 53 billion marks at the end of An across-the-board drop of

percentage points in minimum reserves affecting the whele of foreign deposits in German banks. This will result in reserve requirements of 35 percent for sight deposits, 30 percent for stime deposits and 25 percent for savines denosits

The three measures, all retroactive to Jan. 1, will free 4.5 billion marks from reserva requirements, Mr. Klasen said.

A fourth step, however, will tend to tighten liquidity Mr. Klaser said that a special Lombard credit facility available to the banks has been ended, effec-

Credits against stocks under this facility, which was instituted last Nov. 23 at a time of high domestic money market rates, will have to be repaid to the Bundesbank by Jan. 18. Repayments will amount to 2 billion marks, Mr. Klasen said.

He said the Bundesbank's decision to persist in its tight-money policy had the full en-

he conceded that a loosening might become necessary soon.

His statement came after a reporter suggested that growing unemployment and the danger of recession arising from higher oil prices might call for easier money. The government has taken a number of measures designed te counteract the deflationary effects of the oil crisis, including the suspension of an 11 percent

#### Project Would Bypass Suez Canal

## Ex-Im Bank Approves Arab Pipeline Loan

By Thomas J. Foley VASHINGTON, Jan. 11.-The port - Import Bank yesterday groved a loan and financial trantee et \$100 million to five '15 oil-producing nations to ild a pipeline from the Gulf of ez to the Mediterraneau, byd enabling oil companies to old lengthy tanker voyages and Africa.

asist of twin 42-inch pipelines er the 2,200-mile stretch as ll as pumping stations, storage vilities and marine terminals. The pipelines will have an anal capacity of about 600 million barrels in the initial phase antees loans at low interest rates and about 900 million with the construction of booster stations.

Bechtel Prime Contractor Bechtel Corp. of San Francisco is the prime contractor for the project which will be owned by the Suez-Mediterra-nean (SUMED). Petroleum Pipe-

line Corp. of Cairo. SUMED is owned half by the Egyptian government and half by the governments of Saudi Arabia, Kuwait, Abu Dhabi and Qatar. Work on the project is scheduled to begin in June. The Export-Import Bank is a

U. S. government-owned institution that lends money and guar-

## Arab Oil Men Invest In U.S. Real Estate

NEW YORK, Jan. 11 (AP-DJ) .- For several months Mideast oil interests have been looking at U.S. real estate as a possible haven for investing their dollars. One of the first large transactions, involving \$250 million, is about to surface through a Louisville, Kentucky, financial and real-estate

Enck. Hollingsworth & Reveaux, the Louisville company, has agreed to invest the funds for an international investment firm handling largely government oil money from Lebanon and Kuwait. A group of investors in the Persian Gulf area also

is involved in the transaction. Under the arrangement, Enck, Hollingsworth would invest an initial \$50 million in real estate, backed by a \$200-million line of credit. Ultimately, the investment would reach \$250

The Mideast investors have been promised a set rate of return on the investment, as they are more interested in yield than speculation. Thus, one source said, the injection resembles a private placement loan and the U.S. company can borrow heavily against the invested capital, expanding the scope of its

Mideast oil dollars were a major factor in foreign currency markets last year as oil interests took advantage of an unfavorable exchange rate for dollars, turning them into other currencies. The dollar is strengthening and oil interests must find dollar investments. Because the U.S. stock market is currently weak, it appears many oil dollars will be invested in

to finance exports of U.S. prod-

At 6 Percent Interest The bank's announcement said the repayment of the loan, carrying 6 percent interest, is to be made in 16 semi-annual installments beginning in August 1977.
The \$100-million transaction will support the sale of \$200 million worth of U. S. goods and services, the bank said. The pipefines will be used by a group international oil companies which have already signed commitments.

The arrangement was immediately attacked by Rep. Thomas M. Rees, D. Calif., a member of the House of Representatives Banking Committee as giving Middle East oil producers "even more leverage than they now have in their stranglehold on the individual oil-consuming nations of the world."

Rep. Rees questioned the trans-action on a number of grounds. "Oil is a necessary wenpon in any war," he said, "and in ap-proving this loan we would be, in a sense, arming Egypt at a time when our policy has been to establish a status quo in this area as the basis for equality of bargaining in talks between

He also said the loan should be contingent, on an agreement on future Arab nation policies relative to selling and pricing of exported oil:

IA congressional panel will probe the justification for government approval of the financing plan, Reuters reported today. [A seurce on the Heuse Bank-Committee said the financing deal will be questioned closely since the Export-Import Bank needs new congressional autherization by this July to continue its lending operations.]

## Fed Figures Show Credit Grows Easier

Some Interest Rates Move Down in Week

NEW YORK Jan 11 (NYT) -Banking and credit statistics released by the Federal Reserve Bank of New York yesterday seemed to indicate a continuing trend toward making it easier to borrow money.

Interest rates on federal funds -uncommitted reserves that banks lend to each other-declined to 9.78 percent en average for the week ended Wednesday from 9.87 percent the week hefore.

The average interest rate on cemmercial paper moved down to 8.98 from 9.16 percent, lowering te 9.10 percent the three-week moving everage for this key rate. used by some banks to determine their own loan rates.

Growth in bank reserves and the money supply continued to speed up, while banks borrowed ess from the Federal Reserve. Business loans were up at New York City banks, but only slightly, and loans at Chicago banks

Among the monetary aggregates, the money supply—cur-rency plus most checking-account balances-increased to a record \$269.2 billion for the week. As a result, the supply for the month ended Jan. 2 showed a 7.9 percent growth rate from the preceding quarter, up from 7.3 percent a week earlier and the fastest rate since last August

Last June, the Fed's pelicysetting Open Market Committee targeted a slower growth in the money supply to curb inflationary

Now, though wholesale prices soared to a highly inflationary 18.2 percent in 1972—their higgest jump since 1948-the money supply is showing faster quarterly growth rates,

Viewed over a longer time span however, the money supply expansion is at a much slower pace now than last summer.

#### Japan Purchased Wheat to Avoid Price Increases

TOKYO. Jan. 11 (AP-DJ) .-Japan's large-scale purchase of Canadian wheat this week was made to avoid possible higher prices later in the year, an official in the import division of the gevernment's food agency said today.

He confirmed reports from the United States and Canada that the agency bought 35.6 million hushels, or about 96,000 tons, ef Canadian red spring wheat earlier this week, but he declined te disclose the price.

One report from Winnipeg said the Japanese paid about \$5.05 a bushel and that the report price for the same wheat has eince risen to \$5.85.

The efficial said the wheat is to be exported from Canada in April, arrive in Japan in May and ge on the domestic market in August.

The Japanese still have fresh memories of last years soybean debacle, when short supplies resulted in skyrocketing prices and an eventual temporary ban on reports by the United States. These developments greatly alarmed the Japanese public, developments greatly which was told that Japane soybean stocks would soon be exhausted if the United States embargo were long continued, and pressure mounted on the government fer lenger-range import planning.

# FINANCIAL NEWS AND NOTES

Signal Restrained From Selling Unit Signal Cos. has been temporarily restrained from selling its unit, Signal Oil & Gas Co., to Burmah Oil Co., the U.S. subsidiary of Londonbased Burmab Oil Co., fer \$480 millen in cash. A temporary restraining order was won through the action of Cemp Investment Ltd., a Canedian company that owns about 1.5 million of Signal's 23 million outstanding shares. The order by a Wilmington, Delaware, court called for a hearing on evaluation of the Signal unit's worth to be held in Wilmington on Jen. 28. Cemp challenged the planned acquisition en grounds that competi tive bids should be invited for the subsidiary and that any transaction should be subject to share-

Oil and Gas Found in Aegean

Cemmercially-exploitable deposits of all end gas have been found by a group of companies in the north Aegean Sea. John Edward Brantly, manager of drilling and production of Oceanic Exploration, which beads the group, predicts deposits in the area could cover Greece's requirements in ell and gas within the next five to six years. He says that even if further drilling is negative, expieltation of deposits found so far would cuil be profitable at present oil prices. Mr. Brantly says Oceanic, of Denver, Colo., holds a 68.75 percent interest in a 3,300-squaremile eil and gas concession in the north Aegean near the Island of Thasses. Hellenic Oil Ce. Inc., a subsidiary of Fluor Drilling Services Inc., and Wintershall AG, a BASP AG subsidiary, each

hold 12.5 percent and White Shield Greece Oil Ce., a subsidiary of White Shield Exploration Corp., bolds 6.25 percent.

Fujitsu Cancels Share Offering Fujitsu Ltd., a computer and communications

equipment maker, has cancelled plans to offer 25 million shares of its common stock to the public in April. The cempany also announces a reduction in capital spending plans for the year beginning April 1. Fujitsu says there has been a drastic change in Japan's economic situation following the oil crisis, and that is the reason for meves. The public effer was intended to help linance spending on new plant and equipment. Planned spending has been cut to 25 blllion yen for the coming fiscal year from the 30 billion yen originally planned.

Gleason Works' Net 'Disappointing' Hit with heavy startup occts at its new Belgian plant. Gleason Works expects to repert lower earnings and record soles for 1973, "a very disappeinting year," Heward F. Carver chairman, reports. Although the firm experts 1973 te surpass 1972's \$5.2 million, or \$1.35 a share, the ninemonth net registered \$1.58 million, or 46 cents a share. "Earnings will net be anything like the very strong fourth quarter of 1972," Mr. Carver soys, Yet incoming orders, shipments and the company's backlog et venr-end set records, he adds. Sales reached about \$75 million up from \$70 millien in 1972. About CO percent of the company's 1973 sales are from loreign operations in Australia. Europe, Africa, South America and

To Curb Speculation, Excesses

## Reform of Commodity Marts Eyed in U.S.

WASHINGTON, Jan. 11 (AP-DJ) .- To a growing number of influential U.S. senators and congressmen, the commodities futures apparatus is growing into a monster that is capable of go-ing en binges that victimize farmers and consumers alike.

These legislators nerveusly recall the wild commodity price gyrations of last summer and fear more of the same could come in the new year. They question whether the present reliance en self-policing of markets plus a thinly manned government reg-ulatory agency is enough to prevent possible wrongdeing in to-day's trading melees.

The entire membership of the House Agriculture Committee is calling for an overhaul in regulation of the trading of such staples as sorbeans and pork

Action Expected

Such talk has been circulating 'in Capitol inorridors for morethan-but real action may finally begin after Congress returns to work late this menth. Just hew far the lawmakers will clear, but many senators, congressmen, Agriculture Department officials and some commoditymarket People are betting on the following:

· A heavily-staffed commission will be established to oversee futures trading, much as the Securities and Exchange Commission watches the stock and hand markets. Most people agree that the existing Commodity Exchange Authority, with week pewers and a relatively small staff of 180, cannot cope with the hurgeoning markets. The SEC has stronger authority and a force ef some 1,500 to de its

policing job. • The new commission will be given power to impose injunctions on traders it suspects are attempting to manipulate any part of the market. Cenvicted wrengdoers will face fines and iail sentences

· All traded cemmodities, including metals, sugar, coffee, cocoa and others currently outside the CEA's balliwick will be brought under the cemmissien's jurisdiction.

• The commission will be empowered to set "margins," which determine the minimum ameunt of cash a buyer must provide. An investor-protection bureau will be set up te insure cus-

tomers against loss in case a commedity broker goes bank-It is possible that much of this sgenda could get side-tracked in a 1974 legislative prierity squeeze. especially if food prices were to drop and the outery about the

food prices are expected to keep Trading Hits Record Trading of all commodities in tracts worth \$399 billion from 20

futures markets to quieten-but

the year ended last June 30 soared to a record 47 million conmillion contracts worth \$81 billion five years earlier.

MARTHA GRAHAM

By Don McDonagh. Mustrated. Praeger. 841 pp. \$10.95

Reviewed by Anatole Broyard

the tyranny of prettiness. Just as she reintroduced the law of gravity into dance—by bringing it down to earth—so she brought out the gravity of her sex as well. If women soared in ballet, they bore down in Graham. Her work was a flat-footed confrontation with the anatomy of femininity. While ballet embel-lished women—even in dying, they were graceful as swans— Miss Graham investigated their anguish. Her choreography was as realistic as ballet was artificial. The world, of course, was not

ready for anything truly radical. Some found her dances ugly, and sometimes. I suppose, they may well have been, for beauty is only one among many of women's options. There is no denying the test that the chiliration to be fact that the obligation to be beautiful is extremely confining. Anyone who sits through a poorly balanced evening of ballet—as I sometimes have—will recognize this I think modern art uses the ugly at least as much as the beautiful and it is necessary to remember that both these words are highly imprecise. Miss Graham transcends both definitions. . It might be salest to say that she plays them off against each other.

I remember seeing Miss Gra-ham years ago at a theater where Katherine Dunham, the primitive dancer, had appeared the week before. Two smart-looking wo-men sitting in front of me had apparently attended the other program too, for after a long, particularly anguished solo by Miss Graham, one of them turn-ed to the other and said: "Well, my dear, Dunham did fertility and here's Martha with menopause." Like witticism the remark may be unfair, but it raises an interesting question: "Why shouldn't Miss Graham do a dance about menopause? The end of fertility is almost as dramatic in the life of a woman as its beginning—and if anyone could choreograph this, she could, For all I know, I may in fact have seen her do it, under the guise of Greek tragedy.
As Don McDonagh observed in

his much needed critical biography of Martha Graham, she left very few female emotions unchoreographed. She has always been the most militant feminist who ever lived and the most talented. In both ballet and society, women had been "only a bird in a gilded cage." When Miss Graham opened the cage, the bird became a bat out of hell, among other things. She sweated, stamped her feet in deflance, panted instead of pir-ouetted, brought the heavy burden of her body and soul onto the stage. Many of Miss Graham's dances might justly be called vivisections. Here was a striptease with a vengeance, as she tore off veil after veil to show us facels of femininity that many men-and not a few womenmight have preferred to keep under cover.

Mr. McDonagh, who is a dance critic for The New York Times, traces Miss Graham's evolution as she gropes for her vocabulary, finds and refines it. He shows us Times book reviewer.

MARTHA Graham emancipated how she used breathing as a connective beat, how her movements arose always out of dramatic necessity, never expediency. He follows her from her early percussive, transitionless intransigeance to the lyrical elegance she created when her fight was won and she knew she could afford it. Interviewing friends, ag-sociates and members of her company, painstakingly research-ing the 50 years of her career, he tells us about her feelings, her thinking, her reading, her approach to both choreography and

Though he must have been hampered by the dissension that has haunted the Graham Company for at least a decade, by Miss Graham's own unwilling. ness to explain herself, by the silence imposed on those who wished to stay in her favor, Mr. McDonagh has given us a com-mendably detailed picture

Since Miss Graham is such an intense subject, he has kept his own tone under discreet control. Realizing that no words can convey the experience of her dancing, he resists this rhetorical temptation and does a good job of describing ber work. He is particularly adept at relating Miss Graham's themes to her life, taking the tension between her puritan background and her thrust toward freedom as the source of her early American pieces, and her hauteur, her in-creasingly "cosmic" pose, as the impulse behind her later absorption in Greek drama and mythol

ogy\_ He does not hesitate to my of Miss Graham that she was interested in berself and the present." Anything she could not perform, she tended to dismiss Originally, she admitted men into her company only because she needed them as pylons around which she could career, Though she fell in love more than one, we get the impression that sie merely "used" men in what wom-en would call a "sexist" way. She showed little interest in choresgraphing their problems, beyond casting them, as Mr. McDonagh puts it, as "ringmaster" and "acrobat," apt evocations of Erick Hawkins and Merce Cunningham.

In referring to her imperious will, Mr. McDonagh reminds us that, before she became famous this may have been the only force holding her company together. Remarking that, in the last de-cade, "she had become the hostage of her own fame," he is generous enough to see this no only as a punishment she brought tion that always threatens genius.

When Miss Graham said that she invented nothing, only rediscovered what the human body could do, it was perhaps ber one moment of modesty. But even if we accepted this understatement, it would still place her among those few who have carried our image of ourselves beyond our wildest imagining and who did it, for the most part, against our own stubborn wills,

Mr. Broyard is a New York

By William N. Wallace

HOUSTON, Jan. 11 ONTT) --Paul Warfield was listed yester-day as a doubtful performer in Sunday's Super Bowl game here and, since Warfield is the leading single-play offensive threat of the Miami-Dolphins, the responses to his possible absence

Warfield pulled the hamstring muscle in his right thigh while the team worked out Wednesday on the artificial turf of Rice Stadium. He immediately walked off the field and will not run again until just before game time on Sunday.

"Then I'll know if I can play," be said, "but not until then."

It was the opinion of the op-posing coach. Bud Grant of the Minnesota Vikings, and several others that Warfield's inability to play would not necessarily les-

game is played.

"Playing cornerback in a champlonship game is a high-risk business. If you make one mistake, an awful lot of people are watching. Bot I look forward to

it. I can hardly wait for the Twilley, who canght a touchdown pass in the Super Bowl a year ago against Washington, said. You can't replace a guy like Warfield, no matter who you replace him with. But I think

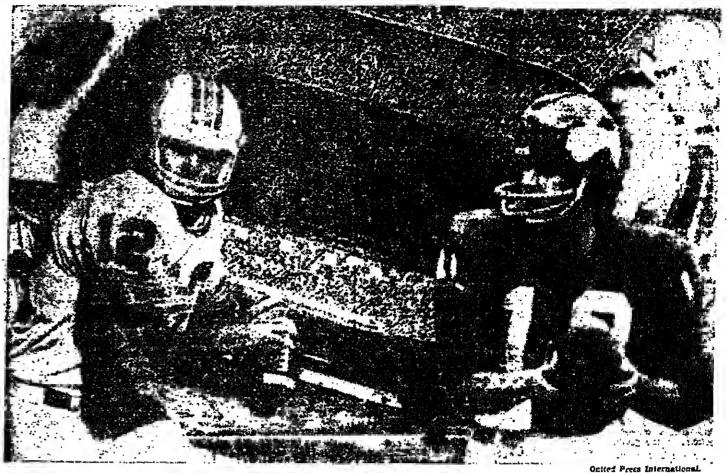

can make a contribution. Mariin Briscoe, Miami's wide receiver on the other side, said that if Warfield did not play he expected the defensive coverage on him would be more intense. don't mind," he added.

Warfield said he had only one leg muscle pull in the past and that was 10 years ago. "Yes, it . ed," he recalled. "All runnerssprinters—worry about muscle pulls. There are not many precautions you can take. They happen and you don't know why or when. For a receiver, anything that goes wrong with his legs has got to be worrisome." Limited Speed

Because the speed of Twilley is limited-"Slow to the left, slow to the right," as he puts it—the problems of the Minnesots free safety, Paul Krause, may be les-sened in the deep coverage of

The Viking had a smile but no comment when told it would take Twilley a week to get down to Krause, that Paul should give back the \$15,000 he would receive if Minnesota wins and Warfield does not play.

The coach continued to carp mildly about the supposed ad-rantages the Dolphins had in practice times and sites. Since this is so unlike the mild Grant, there was suspicion that the Viking mentor was attempting to stir his players or to psychologi-cally combat Shula, who has been a vaudevillian with continuing quips, easy going repartee, cozing confidence all the while.

KEY MEN—Miami's Bob Griese, left, and Minnesota's Fran Tarkeutan will be quarterbacks Sunday in Super Bowl VIII.

## Vikings Coach Expects Dolphins Will Be 'Loose and Sure'

By Dave Brady

HOUSTON, Jan. II WPI,-Bud Grant, whose Minnesota Vikings came out throwing on first down against Dallas two weeks 250, 5255: "I am sure the Dolphins will come out zinging on Sunday.

Grant reasoned that, since Miami coach Don Shula already has won a Super Bowl, and has been to it three times before. the Dolphins will be "free. loose and sure" for his fourth one.

Minnesota quarterback Fran Tarkenton eald that the Vikings "don't have an oftensive wenk-Asked what defensive weakness of the Dolphins he in Super Bowl VII. Before

don't have one." Grant cautioned the media-

and indirectly the Dolphinsagainst jumping to the conclusion that Super Bowl VIII would be a high-scoring game. "I previously said our game with the Redskins would be a low-scoring game and it was 27-20," he pointed out

Turkenton could be intended as messages for the Vikings, too. Weeb Ewbank, the only coach to win it all in both conferences. has predicted that the Dolphins

The messages of Grant and

predicted that running quarter-back Joo Kapp of the Vikings one day would handleap his tenor by an injury because he declined to run out of bounds, and Kapp wrecked his shoulder as the Kansas City Chiefs crushed the Vikings.

Strong Defenses

The Vikings read here that coach Tom Landry of the Conhovs said. "I have to ride with the Dolphins. Busically, it is a inecting of very strong delensive teams—the otrongest in elther conference for not giving up points," That could offend the

Grant cited the muggy weather with temperotures un the 70s as being more familiar to the Dolpinns and noted that the 49ers

wilted in the second half m

scored 27 points to the Cowboys'

sillery weather of Miami, "It is strange here for us," Grant conceded. "We generally work hard for two hours at home, but practice lagged here tor the last half hour yester-

Grant once more stood up for his players with snipings at the commissioner's office about the arconmodotions at the Vikingo. practice field, as if he knew tages, as in cold Minnesota.

Restating his confidence in the Vikings' ability to surmount adversity. Grant said "but, as I said on Tuesday, the players are amused. The veterans [code word for being downgraded as the oldest team in the NFL1 are loose. They are very close -though that is a cliche-and

In contrast to quarterback Bob Griese who said Tuesday, "That's chough about my personal life.
I'm a shy and very private
netcon." Tarkenton was expansive and said. In a reference to George Allen's complaint about the press in Super Bowl VII. "Distractions don't bother me.

Asked About Bandage

He did stipulate, however, that he would have no comment on sulpiblog sald about humself attributed to former coach Norm Vin Brocklin. In the framework, Tarkenton alluded to Van Brocklin's dislike of scrambling quarterbacks when he was asked

about a bandage on the back

"I burned it skidding on the aurtace when I got knocked down by one of our big linemen, ha explained, "while I was in the pass pocket." After beating the Cowboys for his first NFC championship, Tarkentoo said, The idea that scramblers cannot win titles is a lot of garbage."

He also mimicked satincally

the oft-stated theory that "tou cun't throw deep against a zone defense" after he nailed down the victory over the Cowboys with a 54-yard touchdown pass to flanker John Gullam.

Mosconi outpointed Williams, 21 1/2-10 1/2, Tuesday night in the first-round of the \$20,000 tournament Mosconi won the pocket billiards game, 150-8, and Williams — the world snooker champion—won—two of three mooker games played.

The pattern of the exhibitions will have each player alternating rival, in a 17-day tour. The ltinerary calls for stops at Fort Lauderdale, Fla., Los Angeles, San Francisco, Denver and Chicago for the finale on Jan. 24. The players are shooting for

no mean objective.

It was in a dignified, restrained and tasteful atmosphere that the series began. The first match was at snocker, because Mosconi, on winning the toss, offered his rival the latter's specialty. As ture toward Williams. who has been the world professional snooker champion since 1968. He heat Mosconi at the opening snooker contest, 85-to-35, in 13 innings, with a high run of 52 against 19 for Mosconi.

Admittedly unskilled at snocker. Mosconi surprised himself by tak-ing the lead at the start. At one early point, the amiable Williams was moved to say, "Willie, this is supposed to be my game," after a particularly brilliant execution. Near the close Mosconi responded by cheering an equally effective effort by the Englishman.

The afternoon session was held before a casually attired group, but for the evening activity the affair was strictly black tie. The spectatora, a good many of whom were familiar with snooker and its more involved scoring system, maintained a decorous silence all during play, but applanded gen-erously at the conclusion of each

Williams and Mosconi have been practicing by playing each other at the New York Athletic Club for the past week. Each says that, he finds it far from easy to adjust to the "other game." Snooker is played on a larger table, and the pockets are smaller than in the ditions in California, Crampton

LINE UP-Willie Mosconi draws a bead on a shut during start of match at India House.

## Hayes, McNickle Lead Phoenix Open Golf

By Lincoln A. Werden PHOENIX, Ariz., Jan. 11 (NYT).

Johnny Miller called yesterday's play a transition on the pro tour. Golfers in the first round of the \$150,000 Phoenix Open "had to adjust to hitting the normal lies." The U.S. Open champion said, "We could not tee up on the fair-ways as we did last week in the Crosby.

Miller, who won the 54-hole rain-plagued Orosby, scored a 69 yesterday. The rules of golf, not winter rules, were observed.

Bruce Crampton of Australia, the 1973 Phoenix winner, said he had to remember not to pick the ball up from the fairways as he had been accustomed to doing last week under the unusual con-

playing in his fourth tournament as a professional, scored a four-under-par 67 and tied with Artic McNickle, a 27-year-old Call-fornian, McNickle gained atten-tion last year when he beat Miller in the first round of the U.S. match play championship, Hayes had five birdies in his round of 67 and one bogey.

Lanny Wadkins was lu the 69 bracket with Miller, Hubert Green and Jerry Heard, among others. Wadkins got his score despite the 18th. He got a par hy sinking a 25-foot putt. Tom Weis-kopf, the British Open champion was playing in the group back of Wadkins, also hit his second shot into the water at the same hole for a 6 and a 72.

Mark Hayes of Okishoma City. course, revamped since the tournament was played here two years ago, "a great position course—the kind Ben Hogan likes, but the greens are grainy." Miller Barber of Sherman, Texas, Paul Purtzer of Phoenix Bob Wynn of Xenia Ohio, and Fred Martio of Baytown, Texas, were in at 68. "I was blanked," sald Lee Tre-

vino, referring to his card of four-over-par 75 that was barren of birdles. "I have no excuses. I finished dead last among 73 players when I last played here in 1970. I was guessing where my puits were going." Then the talkative Texan said,

"It serves me right for shooting a 75. I was laughing last week when I was watching the boys m the mud on television playing the Miller called the 6,709-yard Crosby."

## Padres' Move May All Boil Down to O'Malley by taking away some of our people, like Vern Under-

By Red Smith

NEW YORK, Jan. 11 (NYT),-Eight months after the San Diego Padres were sold for the first time, the brightest minds in the National League have decided for the fourth or fifth time that they can't decide anything—whether the Padres should play the 1974 season; where they should play if at all; what city they should represent, if any; who's going to own them if they're

It should not be inferred, however, that these men are incapable of making up their minds. They have decided unequivocally that C. Arnholt Smith was mistaken when he advised them recently that he had sold the team to Mrs. Marjorie Lindheimer Everett and

"We felt that we had made a purchase in good faith. subject to league approval," Marie Everett said after the league vetoed the sale to her group, "and we had the support of some fine people in the league. There has to be an ulterior motive on the part of those who opposed us.

"There'e a good deal of scuttlebutt suggesting that certain people are interested in putting a team back-in San Diego for two years and then pulling out. I even hear that somebody is trying to decimate our group wood. Vern is a man of tremendous integrity and class." O'Malley's Blessing

Underwood, a food store owner and liquor distributor, has been mentioned along with Steve Broidy and Sherrill Cowin, film producers, as members of a group of potential bidders with the blessing of Walter O'Malley, grand seignour of the Los Angeles Dodgers. All three were associated with Mrs. Everett in the purchase of the club and all served with O'Malley as directors of a bank.

"We know what we would have done in San Diego." Mrs. Everett said, "but apparently somebody doesn't want baseball to succeed there. Do you suppose it would close the market on pay-TV if San Diego were a strong franchise?"

O'Malley has long been interested in pay television as a source of greatly increased revenue for baseball. Ever since he moved the Dodgers West from Brooklyn 15 years ago, he has foreseen a day when their games would be piped into millions of Southern California homes, for a price.

"Having a club playing in San Diego when the Dodgers are at home would destroy pay-TV for the Dodgers," said Neil Papiann, Mrs. Everett's attorney. "To make it profitable, O'Malley would have to pips his games south, because that's where the population is." "Then if a group favored by O'Malley were to huy the Padres, they would move in a year or so to Throuto or one of those domed studiums in Seattle or New

"Exactly, it's clear that O'Malley won't accept anybody he can't control. By the way, the city attorney of San Diego has said he would do everything he could to keep O'Malley's pay-TV out of towu."

Papiano sald he felt the whole Everett group was out of the picture now, "except for a couple who were in only because O'Malley wanted them in." He meant Broidy and Cowin, whom Underwood let in, he said, at O'Malley's insistence. The lawyer described the atmoaphere of the Chicago meeting as "cordial but hostile, We were not their favorite people."

"It was obvious," he said, "that O'Malley pretty much runs the whole show. Statements he made in the meeting and out of the meeting made that clear. He told some of our people exactly what would happen, what they could do and couldn't do, before the meeting

"I tried before the meeting to get Bowle Kuhn to return my phone calls or meet with me, I lailed, But I don't think the commissioner had anything to do with

## The Big Comet Ripoff

time in my life, I am terribly embarrassed. At Christmas, a few weeks ago, I gave all my readc- a present. It was the comet Kohoutek. I told you all that

(2) The control of the control

if you looked up in the sky from until Jan. 31 you would see it. It was your comet, and it was given to you as a token appreciation for how nice all of you had been

to ms in 1973. You can imag-Buchwald ine my consternation when I discovered the other day that Kohoutek had not

been delivered, and I have re-

ccived many letters of complaint

asking where it was. I immediately called the Universal Star Company to find out what went wrong. After a dozen calls, I finally managed to get the sales manager in charge of comets on the phone.

After I had explained the prob lem, he said rather tersely Kohoutek, Kohoutek? Oh yes. here it is. Your comet was recalled. It had a faulty tail and bad paint joh. We're trying to make repairs on it now."

"But." I protested, "I was promised a dazzling display of celestial brilliance which would fill the sky with a million moons. I don't want a used comet that's been recalled for a faulty tail." The sales manager replied: "If you look at your 90-day warranty, you will see that the company is responsible for everything that

#### Ghana Asks British To Return a Treasure

goes wrong except if the comet

ACCRA, Jan. 11 (AP),-The Ghanalan government has asked Britain to return a golden stool taken when the British invaded the African kingdom of Ashanti

a century ago.
Ashanti is now a region of Ghans. An nificial said yesterday that the government was also taking steps to recover from Britain other treasures "stolen, smuggled or otherwise taken out of the country during British rule."

WASHINGTON.—For the first fails to shine or light up the sky. "But what good is a comet if you can't see it?" I asked.

> "The Universal Star Company has the best quality control of anyone in this business. Occasionally a mistake is made and we try to rectify it. But we cannot be responsible if something goes wrong with a star that is 50 million miles long, particularly during the energy crisis."

"But you advertised Kohoutek as the greatest thing since Halley's comet. You said that when it emerged from behind the sun it would be the most magnificent display of fireworks in the 20th century. You claimed it would be the most breathtaking galaxy of light in 2,000 years."

"Yes," said the sales manager, "our advertising ageocy did go a little overboard on its copy But there was no fraud intended. The comet is out there-it's just that you can't see it." Well I think all of us should

get our money back." "We can't do that," the sales manager replied. "If we refunded money to everyone who expected to see Kohoutek this January, the Universal Star Company would go out of business."

I became angry. "If you don't refund my money, I shall write a column saying the Universal Star Company is B fraod and that they sell cheap, unsafe comets."
"We're sorry you feel that way. But if we exchanged Kohoutek for you, we'd have to do it for everybody. Every universe has lemon or two. All ws can do fix the tail and hope for the

I hung up in disgust. So, dear reader, that's the story of your Christmas present. wish I could give you something else in its place, but Kohoutek used up all my money. It was one lousy ripoff and I assure you it's going to be a loog time hefore I buy a comet for anybody again.

The only thing I can do now to make up for the gift you never received is to promise in 1974 that I will never say in my columns, "Things have to get worse before they get better," I know it's not much of a gift compared to Kohoutek, but sure as time goes on you'll ap-preciate it more and more.

#### Mary Blume

An old view of the Versailles gardens. "The vast formal gardens of France were conceived as settings for self-satisfied people." says Hugh Johnson.

#### Trees: Facts. **Fantasies**

PARIS (IHT).-Trees, except of course for the dreadful stunted bonsal, suggest air and space. In modern cities they have become choked, gasping elements of decoration to cover man's mistakes, hut everywhere they are more than ever the most satisfactory elements of dreams, souvenirs of times when all the world was young and all the trees were green, and the best place to imagine oneself with a jug of wine, a loaf of bread and whoever happens to be thou at that moment.

Only on the subject of trees can good sense and fantasy be so closely entwined. As the great rhododendron grower Lionel de Rothschild once begao B lecture to a city gardening club, "Gentlemen, no garden, no matter how small, should be without its twn acres of rough woodland."
A book which combines fantasy and good sense with wonderfully evocative photographs and an intelligent text is "The International Book of Trees" (published by Mitchell Beazley, Loodon, £9.95). which has the added virtue of covering the glassy expanse of most coffee

The text-full of charts done with a care usually reserved for sex books these days—is by Hugh Johnson, who used to own a plane tree in London and now has several in Essex and has the further honor of living in the same village as the world's largest smooth-leafed elm. Mr. Johnson also wrote the "World Atlas of Wines" and has two of the encyclopedist's essential qualities-enthusiasm and quirks

enough to ripple the smooth flow of his erudition.

Proof of Mr. Johnsoo's lack Johnson writes. Theo came the ice age (in fact there were four ice ages, with the names, rather like a of rigidity comes on page 177 of his book (there are 288 pages including indexes), in a chapter Los Angeles law firm, of Gunz, on willows which bears a tiny color photo of the Chilean Maytenus which, as the caption ex-plains, "is no relation of the willow (or any tree in this book), but this is the only place for it." He detests classical French and Italian gardening ("the vast formal gardens of France were conceived as settings for self-satisfied people in huge numbers. Trees were mere building materials"), and criticizes Capabality Brown for not using newly discovered species. He thinks yew always looks elderly, even senile, defines topiary as gardening with a

sense of humor and thinks the weeping beech a monstrosity ("The ash and the elm both weep more convincingly. The beech's are surely crocodile tears"). He is soft on holly, especially Father Perny's holly, and he wishes Europe's little hedge (or field) maple came from Japan so people would fuss more over it. If he could have a tree outside his climate zone (the book is for readers in

an olive. In the beginning, some million years ago when there were no climate zones and nature was green in tooth and claw, "Asia, America and Europe alike had swamp cypresses, magnolia, sequoia, sweet gum. gingko, in-cense cedar, umbrella pine, as well as oak, beech and the other

temperate regions), it would be

commoo trees we know," Mr.

Mindel Riss and Wurm), followed many hundreds of years ister by adventurous travelers who brought back now exotic species to their native lands. If the United Kingdom especially Scotland, is the greatest tree collecting nation (the dukes of Atholi are hereditary larch outs: the fourth duke planted 17 million of them), it is China that is the mother of gardens and the book is full of intrepid travelers' discoveries in the Orient. (Cuttings were often preserved in voyages across the world by having their eods

stuck in a potato.)
One of the most famous was
Père David, the French missionary who, among other things, first reported the panda and the dovs tree (Davidia). The most intrepid was Ernest Wilson, seot off to China by Veitch's nursery in England to collect the devidia. First he went to Yunnan to find an amateur botanist, Dr. Augustine Henry, who told him to travel another 900 miles to Ichang and gave him a map of sorts—it showed a solitary tree in an area the size

of England. Wilson was boat-wrecked in the rapids. It was the time of the Boxer Rebellion and his guide was an opium addict, But finally he found the tree. Its stump was standing by a house that had just been built from its wood. "I did not sleep that night." he wrote with admirable understatement in his diary. According to an agreeable and possibly true tale the first weeping willow in England came from China via Spain as a withy used to tie a parcel sent to Lady Suffolk in London Alexander Pope, noting that one of the twigs was alive, begged it and planted it in his garden at

Twickenham. Other incidental intelligence: the hackberry is the Lotos of Tennyson's Lotoseaters. French wainut wood is used for English guo stocks, the California laurel is known as the Oregon myrtle in Oregon, and the parrotia is named after one Herr Parrot while the Judas tree is not named after whom you think but after its place of origin; in French it is

l'arbre de Judée. Mr. Johnson writes on everything from the Abies evergreen to the Zelkova serrata. In his hawthorn chapter he quotes William Morris, "When I smell a May Tree I think of going to bed by daylight," and his elm section is expectedly filled with anguish.

Indeed, the book is filled with a sense of the threats that hang over tree-life, and it was written before the energy crisis made things worse. Today a fashionable former florist in New York sells hirch logs at \$1 each and the phrase might well be "Suburbanite, spare that tree." In fact anyone tempted to cut down a tree to bring on the heat should pitch this hefty book into the fire instead. Mr. Johnson would surely under-

#### Swedish King Rumored PEOPLE: Engaged to German Cirl

King Carl XVI Gostaf will announce his engagement to a We t German commoner on his birthday, April 30, a Stockholm newspaper reported Friday. Expressen, quoting "informed court sources." said Carl Gustaf, 27. will marry Silvis Sommerlath, 25, whom he met when she was a hostess at the last Olympic Games. "We have no information about that," an official court spokesman said in response to a confirmation request. Swedish newspapers have reported that Miss Sommerlath spent part of the holiday season in Stockholm, staying with close friends of the king's and attend-ing parties at the palace.

Queen Alia of Jordan has informally adopted a bahy Jordanian girl who was orphaned hy a Soviet plane crash. The Middle East Sketch an Englishlanguage weekly, described the adoption as "one of the closestkept secrets of the Jordanian royal court" and published photos of the goeen with the 16-month-

Only the baby survived when a Soviet airliner crashed into her family's home near Amman airport in June. Queen Alla King Husseln's third wife, was quoted as saying that the little girl-called Abeer (fragrance) lay in the wreckage for four hours. "It was a miracle she has survived."
The queen is said to have called in specialists from abroad to treat the child. Abeer gradually re-covered and the queen at first intended to put her in ao orphanage. "But I can't put her away." she said. "I can't let anyone elle take her away from me oow."

Teacher Bobby Waters of Penmare Park, England, wanted his car repainted and a friend recommended a local garage. "They're slow," he said, "but they're thorough." That was five years ago. Waters still hasn't got his car back. Tve called frequently at the garage owner's home." Waters said, "and he oow calls me Bobby and invites me in for tea. But each time all he does is tell me that the car is nearly ready." Said garage owner Harold Thom "I am very painstaking. When I have finished, that car will be the hest-looking Wolseley 16/60 of its years in these parts."

Ballerina Margot Fenteyn Friday became the first woman to receive the Benjamin Franklin medal, awarded annually hy the
